Global Trend Mental Health Recovery:

Innovations in Neurocognitive Rehabilitation K. Jayasankara Reddy, 2025-04-26 Neurocognitive disorders such as Alzheimer's disease, stroke, and traumatic brain injuries have a significant global impact, causing significant challenges for healthcare systems and families. Traditional rehabilitation methods often do not effectively target the diverse and complex cognitive impairments associated with these illnesses. Technology facilitates personalized rehabilitation approaches, enhances patient engagement, and enables unbiased evaluations of progress. This book is particularly pertinent in an era of rapid technological advancement as it presents exceptional opportunities to revolutionize neurorehabilitation techniques and improve patient outcomes.

Oxford Textbook of Shared Decision Making in Healthcare, 2025-08-21 Healthcare systems around the world are placing increasing importance on the relationship between patient choice and clinical decision making, with many countries having shared decision making as a central theme in their healthcare policy developments. The concept of shared decision making (SDM) in healthcare is simple: clinicians and patients work together when solving problems and making decisions. However, the context and implementation are more challenging. Written by a global team of experts, the *Oxford Textbook of Shared Decision Making* fourth edition examines, from both theoretical and practical perspectives, what comprises an effective decision making process, looking at the benefits and potential difficulties that arise when patients and clinicians share healthcare decisions. The first sections cover the theory, methods, and implementation of SDM. Later sections examine SDM from the viewpoints of different clinical and surgical specialties and allied disciplines such as nursing, pharmacy, and midwifery. Each chapter contains reflections from a patient partner with lived experience of SDM, giving a truly diverse and collaborative account of how SDM can work between patients, families, carers, and healthcare professionals. Authoritative, evidence-based, and grounded in clinical practice, the *Oxford Textbook of Shared Decision Making* explores a very important paradigm shift in the delivery of healthcare, providing thoughtful consideration and key strategies for its successful implementation.

Occupational Therapy in Psychiatry and Mental Health Rosemary Crouch, Vivyan Alers, 2014-09-22 Comprehensive and informative, the extensively revised fifth edition of *Occupational Therapy in Psychiatry and Mental Health* is an accessible overview of occupational therapy in psychiatry, providing key information on a range of international models of occupational therapy as well as their practical applications. The fifth edition includes case studies throughout to illustrate the application of theory to practice. Coverage of key concepts and issues in occupational therapy, new material on emerging areas of practice, comprehensive information on assessment and treatment for children, adolescents, and adults covering key mental health conditions. *Occupational Therapy in Psychiatry and Mental Health* is an ideal resource for students in occupational therapy, newly qualified and experienced practitioners, and other allied health professionals seeking an up-to-date, globally relevant resource on psychiatry and mental health care.
