Cli Fi Novel Blueprint:

Apocalyptic Visions in the Anthropocene and the Rise of Climate Fiction Kübra Baysal, 2021-08-10 With the increasing interest of pop culture and academia towards environmental issues which has simultaneously given rise to fiction and artworks dealing with interdisciplinary issues climate change is an undeniable reality of our time In accordance with the severe environmental degradation and health crises today including the COVID 19 pandemic human beings are awakening to this reality through climate fiction cli fi which depicts ways to deal with the anthropogenic transformations on Earth through apocalyptic worlds as displayed in works of literature media and art Appealing to a wide range of readers from NGOs to students this book fills a gap in the fields of literature media and art and sheds light on the inevitable interconnection of humankind with the nonhuman environment through effective descriptions of associable conditions in the works of climate fiction *Reimagining Science Fiction* Gary Westfahl, 2025-10-31 In the first decades of the twenty first century science

fiction literature has been transformed in many ways as the genre has reacted to the dominating influence of films television and video games the growing popularity of fantasy the rise of young adult science fiction and graphic novels the impact of the internet and social media and the increasing diversity of the authors characters and often non Western settings The essays making up this volume address these and other changes in two ways Some consider new critical approaches to science fiction in response to changing circumstances including analyses of how evolutionary psychology explains today s science fiction the emerging subgenre of cli fi exploring the effects of climate change the use of science fiction in different areas of the college curriculum and a statistical method for identifying works of science fiction Others examine significant new authors such as Nalo Hopkinson Charles Stross Paolo Bacigalupi Suzanne Collins Mira Grant John Sandford and David Mura Contributors include science fiction author Howard V Hendrix and experts in the fields of Chinese studies gender studies literature philosophy and religion *The Cambridge Companion to Twenty-First Century American Fiction* Joshua Miller, 2021-09-23 This volume explores the most exciting trends in 21st century US fiction s genres themes and concepts

Understanding Public Debates Jens Martin Gurr, 2024-06-20 By historicizing and contextualizing them through readings of carefully selected literary texts literary studies can contribute to understanding and rationalizing key debates waged in many pluralist societies today whether on different conceptions of liberty identity politics historical commemoration challenges of globalization or responses to climate change Understanding Public Debates presents case studies including Milton s Paradise Lost P B Shelley s 1820 Reform essay Philip Roth s The Human Stain the songwriting of Neil Young and Edward Young s 1720s Sea Odes recent climate fiction as well as non literary conflict narratives Rather than mining texts for arguments for or against certain positions this book is interested in how texts stage these debates by means of multiple perspectives narrative situations or ambiguities By suggesting how educators might use literary texts as conversation starters for more rational debates the volume also contributes to Public Literary Studies Three important fields are here

brought together 1 the study of societal debates and conflicts and the ways in which they challenge pluralist societies 2 explorations of the societal functions of literature and of non literary narratives and 3 discussions of the role and functions of literary studies The book ends with ten crisp theses on how literary studies can contribute to understanding and rationalizing such conflictive debates

Science Fiction in India, 2022-05-30 Shortlisted for the British Society for Literature and Science BSLs Book Prize 2023 Nominated 2023 Teaching Literature Book Award Indian Science Fiction has evolved over the years and can be seen making a mark for itself on the global scene Dalit speculative fiction writer and editor Mimi Mondal is the first SF writer from India to have been nominated for the prestigious Hugo award In fact Indian SF addresses themes such as global climate change Debates around G C C are not just limited to science fiction but also permeate in critical discussions on SF This volume seeks to examine the different ways by which Indian SF narratives construct possible national futures For this looking forward necessarily germinates from the current positional concerns of the nation While some work has been done on Indian SF there is still a perceptible lack of an academic rigor invested into the genre primarily perhaps because of not only its relative unpopularity in India but also its employment of futuristic sights Towards the same among other things it proposes to study the growth and evolution of science fiction in India as a literary genre which accommodates the duality of the national consciousness as it simultaneously gazes ahead towards the future and glances back at the past In other words the book will explore how the tensions generated by the seemingly conflicting forces of tradition and modernity within the Indian historical landscape are realized through characteristic tropes of SF storytelling It also intends to look at the interplay between the spatio temporal coordinates of the nation and the SF narratives produced within to see firstly how one bears upon the other and secondly how processes of governance find relational structures with such narratives Through these the volume wishes to interrogate how postcolonial futures promise to articulate a more representative and nuanced picture of a contemporary reality that is rooted in a distinct cultural and colonial past
