Mato Grosso, Last Virgin Land Anthony Smith, 1971 In 1965 the Brazilian authorities began building a highway through the Mato Grosso a remote relatively unexplored region of Brazil They invited several countries to send scientists to study the area Between 1967 and 1969 dozens of scientists explored the area **Translations on North Vietnam's Economy**, 1964-02 **Revisionary Interventions into the Americanist Canon** Donald E. Pease, 1994-06-17 Throughout the era of the Cold War a consensus reigned as to what constituted the great works of American literature Yet as scholars have increasingly shown and as this volume unmistakably demonstrates that consensus was built upon the repression of the voices and historical contexts of subordinated social groups as well as literary works themselves works both outside and within the traditional canon This book is an effort to recover those lost voices Engaging New Historicist neo Marxist poststructuralist and other literary practices this volume marks important shifts in the organizing principles and self understanding of the field of American Studies Originally published as a special issue of boundary 2 the essays gathered here discuss writers as diverse as Kate Chopin Frederick Douglass Emerson Melville W D Howells Henry James W E B DuBois and Mark Twain plus the historical figure John Brown Two major sections devoted to the theory of romance and to cultural historical analyses emphasize the political perspective of New Americanist literary and cultural study Contributors William E Cain Wai chee Dimock Howard Horwitz Gregory S Jay Steven Mailloux John McWilliams Susan Mizruchi Donald E Pease Ivy Schweitzer

Priscilla Wald Michael Warner Robert Weimann **The New American Exceptionalism** Donald E. Pease, 2009 For a half century following the end of World War II the seemingly permanent cold war provided the United States with an organizing logic that governed nearly every aspect of American society and culture giving rise to an unwavering belief in the nation's exceptionalism in global affairs and world history After the collapse of the Soviet Union this cold war paradigm was replaced by a series of new ideological narratives that ultimately resulted in the establishment of another potentially endless war the global war on terror In *The New American Exceptionalism* pioneering scholar Donald E Pease traces the evolution of these state fantasies and shows how they have shaped U S national identity since the end of the cold war uncovering the ideological and cultural work required to convince Americans to surrender their civil liberties in exchange for the illusion of security His argument follows the chronology of the transitions between paradigms from the inauguration of the New World Order under George H W Bush to the homeland security state that George W Bush's administration installed in the wake of 9 11 Providing clear and convincing arguments about how the concept of American exceptionalism was reformulated and redeployed in this era Pease examines a wide range of cultural works and political spectacles including the exorcism of the Vietnam syndrome through victory in the Persian Gulf War and the creation of Islamic extremism as an official state enemy At the same time Pease notes that state fantasies cannot altogether conceal the inconsistencies they mask showing how such events as the revelations of prisoner abuse at Abu Ghraib and the exposure of government incompetence after Hurricane Katrina opened fissures in the myth of exceptionalism allowing Barack Obama to challenge the homeland security paradigm with an alternative state fantasy that privileges fairness inclusion and justice
