Magic Circles Devin McKinney,2003 No one expressed the heart and soul of the Sixties as powerfully as the Beatles did through the words images and rhythms of their music In *Magic Circles* Devin McKinney uncovers the secret history of a generation and a pivotal moment in twentieth century culture He reveals how the Beatles enacted the dream life of their time and shows how they embodied a kaleidoscope of desire and anguish for all who listened hippies or reactionaries teenage fans or harried parents Bob Dylan or Charles Manson The reader who dares to re enter the vortex that was the Sixties will appreciate perhaps for the first time much of what lay beneath the social trauma of the day Delving into concerts and interviews films and music outtakes and bootlegs Devin McKinney brings to bear the insights of history aesthetics sociology psychology and mythology to account for the depth and resonance of the Beatles impact His book is also a uniquely multifaceted appreciation of the group s artistic achievement exploring their music as both timeless expression and visceral response to their historical moment Starting in the cellars of Liverpool and Hamburg and continuing through the triumph of Beatlemania the groundbreaking studio albums and the last brutal sorrowful thrust of the White Album *Magic Circles* captures both the dream and the reality of four extraordinary musicians and their substance as artists At once an entrancing narrative and an analytical montage the book follows the drama comedy mystery irony and curious off ramps of investigation and inquiry that contributed to one of the most amazing odysseys in pop culture

Zoos K. Lee,2005-11-22 In this book Keekok Lee asks the question what is an animal and how does our treatment of it within captivity affect its status as a being This ontological treatment marks the first such approach in looking at animals in captivity Engaging with the moral questions of zoo keeping is it morally justified to keep a wild animal in

captivity as well as the ontological what is it that we conserve in zoos after all A wild animal or its shadow Lee develops her own original hypothesis centred around the concept of immuration defining this in contrast to domestication and thereby provides a unique addition to the growing body of work on animal ethics American Book Publishing Record ,1984
