**Jack Meyer**

## **The Odyssey Of The Western Spirit:**

*The Odyssey of the Western Spirit* Jack Meyer, 2019-09-05 The Odyssey is a general theory as to how mankind moved from the scarcity of primitive life to the present world of technological abundance It offers a specific view of psychological life that recurs in the institutional structures of religion capitalism and romanticism A similar theme emerges in the various configurations of the Western world starting with Odysseus on his way home to today's world of global outreach a story like no other

**The Odyssey of the Western Spirit** Jack Meyer, 2007 The Odyssey of the Western Spirit traces the development of consciousness and then self consciousness from its earliest beginnings in primitive life to its complex manifestation in our own times The central focus is to describe the tremendous power that is thinking as that thinking has gone about the task of building the world in which we live Three fundamental questions structure this presentation First of all what is the general condition for the possibility of human existence Or what is the essential common denominator that makes us all human regardless of time place and circumstance Secondly what are the specific conditions for the possibility of human existence in the Western world Or what is the specific difference that defines the West as it has become the most powerful cultural formation in history Thirdly where do we go from here Or with the end of the Cold War what opportunities present themselves that could put the world onto the high road of prosperity and goodwill The Odyssey is a philosophical and historical account that places into unique perspective the threshold upon which the world now stands and concludes with a proposal for a new political party that would stand at the Center Available in Hardcover from the following retailers [www.amazon.com](http://www.amazon.com) [www.amazon.co.uk](http://www.amazon.co.uk) [www.barnesandnoble.com](http://www.barnesandnoble.com) [www.powells.com](http://www.powells.com) [Blackwood's Edinburgh Magazine](#) ,1884

**Alcibiades** Jack Meyer, 2009-12 Is he just a troublemaker with an attitude Or will this spunky youth grow up to do something great The populace of Athens holds varied opinions about Alcibiades a handsome boy who exhibits a devious and audacious personality Based on historical record author Jack Meyer reconstructs the life of Alcibiades a man who uniquely impacted classical Athens during the Peloponnesian War An orphan Alcibiades grew up in the household of Pericles was Socrates favorite student and was immensely handsome and rich This narrative tells the story of the stunning career of this brilliant tactical military commander persuasive orator and consummate traitor who switched sides three times during the war The city's own favorite son this product of the Golden Age was a man as morally corrupt as he was convincingly eloquent The reconstruction of Alcibiades story breeds both fiction and farce and this story of the Greek experience serves as an analogue for a critique of today's American foreign policy

**East and West** Y. J. Choi, 2010-12 East and West Understanding the Rise of China by Y J Choi Innumerable articles and books have been written about East Asia and China since this part of the world has been catapulted into the center of the global economic scene Unfortunately most if not all of them are wide of the mark in terms of understanding the geographic and philosophical fundamentals of Eastern civilizations undergirding the rise of the East The relative decline of the West appears to be inevitable as the ascendance of the East

prompts a shift of the center of gravity from the Atlantic to the Pacific Accordingly we need to understand the East and the West for that matter by freeing ourselves from the centuries old habit of West centrism Neither in the West nor in the East do we find a paper written with a balanced approach regarding the two civilizations Because of this and thanks to his vast experience in both East and West Ambassador Y J Choi was prompted to explain this epochal change by comparing the two civilizations on equal footing His text constitutes the very first book attempting an objective neutral and balanced comparison of ancient Eastern and European Mediterranean civilizations including their influence on and implications for contemporary events
