Anglophone Literature of Caribbean Indenture Alison Klein, 2018-09-27 This book is the first comprehensive study of Anglophone literature depicting the British Imperial system of indentured labor in the Caribbean Through an examination of intimate relationships within indenture narratives this text traces the seductive hierarchies of empire the oppressive ideologies of gender ethnicity and class that developed under imperialism and indenture and that continue to impact the Caribbean today It demonstrates that British colonizers

Indian and Chinese laborers and formerly enslaved Africans negotiated struggles for political and economic power through the performance of masculinity and the control of migrant women and that even those authors who critique empire often reinforce patriarchy as they do so Further it identifies a common thread within the work of those authors who resist the hierarchies of empire a poetics of kinship or a focus on the importance of building familial ties across generations and across classifications of people
