,1998-07 *Vietnam Economic News* ,2021-07 **Daily Report** ,1992-05 **Nehru and His World Order** Attar Chand,1989 The world order of Pandit Jawaharlal Nehru 1889 1964 has always been a subject of considerable scholarly and global interest and yet these are not too many books where the said subject has been extensively dealt with Shri Attar Chand s book is such a one which is based on sufficient study and research and covers all the important phases and facets of Nehru highlighting the period 1920 1988 to present a study of Nehru s ideas and impact The essays contained in the volume present interpretations of Nehru s philosophy and thoughts viz his strong adherence to democratic principles his deep love for secularism his great desire to see world free from tension and exploitation and his unending efforts at global cooperation for the good of the mankind and his economic policies Nehru s contributions to the organization and consolidation of the Indian National Congress as a vehicle for the struggle for Freedom have been well evaluated in some of the essay Nehru has been depicted as one of the makers of independent India and the values in the field of democracy secularism socialism and non alignment set by Nehru have been discussed Shri Attar Chand has augmented the collection with an elaborate and exhaustive introduction which not only throws ample light on the life philosophy and achievements of Nehru as a leader of the Freedom Movement and the first prime minister of independent India but also closely examines the far reaching results of Nehru s economic policies and reforms India s planning since the First Five Year Plan during Nehru s time and after has been evaluated without any bias or prejudice The introduction may be studied also as a well researched study of India s foreign policy as propounded and set in motion by Nehru Shri Attar Chand s work contains writings by some eminent persons who have lived and worked with Nehru for years The book provides the readers with a historical perspective of Nehru s world order

Evaluation of Potential Use Cases for Blockchain in the Insurance Industry Ricardo Escoda,2021-03-09 Master s Thesis from the year 2020 in the subject Economics Finance grade 1 3 International School of Management Campus Munich language English abstract Blockchain is considered to be a breakthrough technology with many strengths and opportunities but also weaknesses and threats for all industries around the globe It has the potential to revolutionize many sectors but it is not a universal remedy and does not replace every single traditional technology Most businesses do feel insecure whether to invest time and money for Research and Development due to the lack of industry standards and regulations with respect to the technology Before being able to guarantee suitability and successful implementation in any business it is essential to study the differences between public private hybrid and consortium Blockchain types In areas of application not strongly relying on Blockchain s distributed systems alternative solutions such as Big Data Analytics Artificial Intelligence and Machine Learning might be more valuable Nonetheless Blockchain promises the unique potential for insurance companies to efficiently serve global markets with areas of application mainly concentrating on parts of the VC where bureaucracy can be reduced by automation For instance the use of Smart Contracts where lots of data are analyzed saved distributed and processed By implementing BC fields where the focus is on customer experience such as Payments

Data Security Transparency and Developing New Business and Product Ideas can be improved enormously Use cases and new products supported by Blockchain might include P2P Micro Insurances Ad hoc and Parametric Insurance Models Automized Underwriting Reduction of Fraud and Abuse and Health Insurance Processes Real Time Analytics in the Form of SCs Instant Pay Outs Automized Claims Management and Improved Risk Modelling of Insurance Businesses might be achievable by connecting Blockchain and Big Data Contrary to the expectations of the author most industry experts are aware of the benefits and opportunities the technology can bring to their companies Still Blockchain is not anchored in their medium to long term visions and strategies Most of the interviewees would rather act as active observers and early followers than taking the lead proactively Reasons for this behavior are the lack of market standards and regulations the absence of solid Blockchain networks and the shortage of use cases but also the lack of know how and data security concerns
