Time To Live Time To Die:

A Time To Live, A Time To Die Jacqui Ryalls, 2012-04-01 This book emerges from a heart of terror and courage and is a poignant lesson in the power of faith This translates into a fast moving inspirational story where lives are saved against impossible odds The author shows the reader the tragedy of war torn Bosnia at a time when ignorance suspicion and fear were stirred into racial hatred which quickly degenerated into the vicious circle of ethnic warfare Many readers will take great comfort in the author s fortitude and marvel at her ability to see rays of hope penetrating the darkest clouds She conveys the tragedy of Bosnia and demonstrates how when tough love is put into action even when surrounded by pain and hatred one can make a small contribution on the side of good This true story offers hope to victims of violence by helping them to realise that others are prepared to make great sacrifices in order to ease their suffering and in this case save lives against impossible odds It is the quality of child like faith in God which helped the author and her husband through the darkest of hours and which makes this such a potent story because religion only becomes truly meaningful when it can be seen to be working in peoples lives and making a difference

And a Time to Die Sharon Kaufman, 2005-04-19 A reassuring and illuminating examination on our conflicting wishes about the end of life how the politics and routines of the American hospital have formed our understanding and experience of death and ultimately why what we consider a good death is so hard to attain In a penetrating and revelatory study medical anthropologist Dr Sharon Kaufman uses two years of intensive observations and interviews with scores of patients family members physicians nurses social workers and other staff at several community hospitals in California to explore the heart of a science driven yet fractured and often irrational world of health care delivery where empathetic yet frustrated hard working yet constrained professionals both respond to and create the anxieties and often inchoate expectations of patients and families who must make decisions they are ill prepared to make She sought out the critically ill the dying and their friends and relatives She followed patients from admission to death days weeks or sometimes months later through what is often for them and their families a Kafka esque journey She asked hospital staff what they were doing and why and stood beside doctors and nurses observing their work cynicism compassion and frustration And she paid close attention to the most important player of all the hospital bureaucracy and how it impacts the manner and timing of patient death Her investigative research links together the emotional experiences of patients and families the dedicated work of hospital staff and the ramifications of institutional bureaucracy to show the invisible power of the hospital system itself its rules mandates and daily activity in organizing death and individual experience of it The book is the story of real patients and their families an account of what drives the American hospital today and a report on the complex sources and implications of doing something about death
