In Defense of Good Teaching Kenneth S. Goodman,1998 Is whole language the cause of the problems that beset our schools Is the debate between whole language and phonics a cover up for control of what and how students learn Is it appropriate that legislators lobbyists textbook publishers and private interest groups evaluate and promote research on teaching and learning Is Christian fundamentalism being exploited by political and economic groups Is the attack on whole language supported by research that is valid Is the issue of teaching reading now so polarized that even a balanced approach is no longer acceptable in some schools These questions have come out of the reading wars And teachers now must be articulate and knowledgeable defendants of their own positions in the debate if they are to retain control of their profession In Defense of Good Teaching is the whole language community s first concerted response to its attackers reveals some

disturbing truths in the reading wars deliberate misrepresentation of ideas about the role of the press conflicting political agendas played out in our schools teachers and administrators marginalized for their beliefs and commercial interests dressed up as scientific research This is an alarming and enlightening book and as the dispute broadens to affect teaching of math and bilingual education it is an important book It will be invaluable to teachers who want the means and strategies to respond to criticism to analyze arguments and to defend their position More is at stake than whole language

Daredevil research Janice Jipson, Nicholas Paley, 1997-03-01 Daredevil Research Re creating Analytic Practice gathers together ten research projects that seek to transform thinking about analytic practice and the construction of research knowledge By experimenting with alternative models of representation unconstrained by the weight of traditional research protocols the authors create multiple spaces for imagining how to differently identify issues for inquiry select modes of analysis and inscribe data into transmittable form At once a production of research knowledge and a conceptual field for meaning making Daredevil Research suggests the possibilities of analytic practice in imaginative independent space

Reading for All Sylvia Edwards, 1999 Aims to help raise achievement for all children particularly those with special educational needs by helping teachers to coordinate the process of inclusion and to meet the requirements of the Literacy Hour The text should enable teachers to plan a differentiated reading curriculum for the benefit of all pupils integrate IEP targets in the normal routine of the classroom assess reading progress more effectively make the most of the Literacy Hour and develop team approaches to pupils reading development through the coordinated use of learning support staff and parents
