This Is No Time For Wimps:

This Is No Time for Wimps! Zondervan, 1997-01-01 *The Search for WIMP Dark Matter Continuum Gamma-ray Emission from Dark Matter Satellites in the Milky Way Using the Fermi LAT* Wang Ping, 2011 This thesis focuses on the search for unknown dark matter DM satellites in the Milky Way using the Fermi Large Area Space Telescope LAT The Fermi Gamma ray Space Telescope Fermi is a next generation space observatory which was successfully launched on June 11th 2008 The LAT is the principal scientific instrument onboard Its unprecedented angular resolution and sensitivity in the 100 MeV to 300 GeV energy range makes it an excellent instrument for probing the sky for DM satellites Current N body simulations based on the Lambda CDM cosmology model predict a large number of as yet unobserved DM satellites in our galaxy some satellites are predicted to be extended sources 1deg extension as seen by the LAT Our work assumes that a significant component of DM is a Weakly Interacting Massive Particle WIMP in the 100 GeV mass range The annihilation of WIMPs results in many high energy gamma rays that can be well measured by the LAT The WIMP produced gamma ray spectrum from the putative DM satellites is considerably harder than most astrophysical sources Also DM satellites have no astronomical counterparts in the X ray and radio bands and the emission has no time variability My thesis will focus on a blind analysis in the search for unknown DM satellites using one year of LAT data and setting constraints on some WIMP models based on the results of our analysis in which we find no candidates *Joe Bob Goes to the Drive-In (Updated Edition)* Joe Bob Briggs, 2025-10-14 This brand new updated art book sized hardcover edition of the long out of print collection by cult film host Joe Bob Briggs features new writing movie reviews and fan letters not seen in over 40 years plus new artwork by comic book artist Mike Norton and an introduction by Stephen King Cult genre film host Joe Bob Briggs collection of wisecracking takes on drive in movies and redneck life is finally back in print This art book sized hardcover edition features Briggs first columns for The Dallas Times Herald and contains his famous B movie reviews fan letters and his replies plus Briggs adventures as the world s foremost expert on drive ins some of which hasn t been in print for more than forty years This expanded newly designed edition includes a cover by Wallace McBride interior artwork by comic book artist Mike Norton and an introduction by Stephen King Featuring Joe Bob Briggs writing on beloved horror classics ranging from Basket Case to The Texas Chain Saw Massacre to The Evil Dead this book is essential reading for all drive in cinema and Joe Bob Briggs fans **The Accelerating Universe** Mario Livio, 2008-05-02 Advance Praise for The Accelerating Universe The Accelerating Universe is not only an informative book about modern cosmology It is rich storytelling and above all a celebration of the human mind in its quest for beauty in all things Alan Lightman author of Einstein s Dreams This is a wonderfully lucid account of the extraordinary discoveries that have made the last years a golden period for observational cosmology But Mario Livio has not only given the reader one clear explanation after another of what astronomers are up to he has used them to construct a provocative argument for the importance of aesthetics in the development of science and for
