**The Tel Quel Reader** Patrick Ffrench, Roland-François Lack, 1998 The Tel Quel Reader presents for the first time in English many of the key essays that played an instrumental role in shaping the contours of literary and cultural debate in the 1960s and 1970s Tel Quel was a French journal and publishing team that printed some of the earliest work by Derrida Bataille Kristeva Barthes Foucault and Deleuze From its beginning in 1960 to its closure in 1982 TQ published some of the key essays of major poststructuralist thinkers The Reader includes essays available in English for the first time by Kristeva and Foucault and a fascinating interview with Barthes It provides a unique insight into the poststructuralist movement and presents some of the pioneering essays on literature and culture gender film semiotics and psychoanalysis Although articles included here cover diverse areas from the semiology of paragrams to the readability of Sade a common perspective runs through them the recognition of excess and the seduction of writing The Tel Quel Reader fills a crucial gap in the English literature on literary and cultural theory and presents a case for the enduring value of the journal's enterprise [French Intellectuals Against the Left](#) Michael Scott Christofferson, 2004 Christofferson argues that French anti-totalitarianism was the culmination of direct democratic critiques of communism revisions of the revolutionary project after 1956 He offers an alternative interpretation for the denunciation of communism Marxism by the French intellectual left in the late 1970s

**The Time of Theory** Patrick Ffrench, 1995 The first full length study in any language of one of the most important elements in post war French intellectual and cultural life The journal Tel Quel was the focus of much of the intense theoretical activity of Paris in the 1960s and 1970s and played a vital role in the development of the key thinkers of the time Roland Barthes Michel Foucault Louis Althusser Jacques Lacan Julia Kristeva and Philippe Sollers Patrick Ffrench traces its history across the time of theory and the catastrophe of May 1968 to the review's controversial affirmation of literature as akin to theology in the late 1970s Beyond its documentary and historical significance the book maps a genealogy of theory from its structural austerity and terror to a new time after theory [The Archaeology of Foucault](#) Stuart Elden, 2022-12-01 On 20 May 1961 Foucault defended his two doctoral theses on 2 December 1970 he gave his inaugural lecture at the Collège de France Between these dates he published four books travelled widely and wrote extensively on literature the visual arts linguistics and philosophy He taught both psychology and philosophy beginning his explorations of the question of sexuality Weaving together analyses of published and unpublished material this is a comprehensive study of this crucial period As well as Foucault's major texts it discusses his travels to Brazil Japan and the USA his time in Tunisia and his editorial work for Critique and the complete works of Nietzsche and Bataille It was in this period that Foucault developed the historical philosophical approach he called archaeology the elaboration of the archive which he understood as the rules that make possible specific claims In its detailed study of Foucault's archive the book is itself an archaeology of Foucault in another sense both excavation and reconstruction This book completes a four volume series of major intellectual histories of Foucault
