Teilhard Scripture And Revelation:

Teilhard, Scripture, and Revelation Richard W. Kropf, 1980 A systematic thematic survey of the writings of Teilhard de Chardin that concentrates on the inspiration given Teilhard by scriptural themes especially those drawn from St Paul for Teilhard appealed to these themes often in confirmation of the basic orthodoxy of his synthesis **Teilhard, Scripture, and Revelation** Richard William Kropf (priest), 1980 **Teilhard de Chardin** David Grumett, 2005 Pierre Teilhard de Chardin 1881 1955 has been regarded for too long as an esoteric thinker who evacuates theology by subjecting it to scientific theory There is an urgent need to reclaim him as a French catholic theologian with intellectual roots in the early twentieth century Teilhard s imaginative and inspiring work is grounded in the constructive use of biblical and patristic motifs and in his own life experiences of war exile and scientific endeavour From these he develops a distinctive philosophical theology which combines elements frequently assigned to the separate domains of philosophy of religion systematic theology and mysticism Teilhard provides a detailed theology of human embodiment and natural substances whilst his theories of human action passion vision and virtue offer suggestive resources to pastoral theology His evolutionary cosmology and social democratic politics are discussed in their historical context and the significance of his work for the ongoing dialogue between science and religion is assessed Models of Revelation Avery Dulles, 1983 Many Roads Lead Eastward Robert D. Miller II, OFS, 2016-10-27 Is there a gap between the academic study of the Bible and the work of theologians What lies behind this gap And most important how have biblical scholars tried to bridge the gap with hermeneutical methods This book addresses the exegesis vs theology impasse and categorizes the most important attempts to bridge it over the past century especially those of the last decades These attempts are assessed and evaluated so that readers can see the philosophies undergirding each and the potential each has for a true theological interpretation of the Bible **Globalization and Multicultural Ministry** David J. Ayotte, 2012 Behind simplified economic and political perceptions of the forces of globalization is a much more complex spiritual evolutionary process whereby the world and all creation is being drawn into being the presence of Christ a Christogenesis **The Spirituality of Teilhard de Chardin** Robert L. Faricy, 1981 The Teilhard Review, 1978 *How Would We Know What God is Up To?* Ernst M. Conradie, Cynthia Moe-Lobeda, 2023-03-01 This second volume in the series on An Earthed Faith will address the following question Given what we know about the Anthropocene how does one even begin to answer the question What is this God up to and how ought humans respond This is a question of theological method including the sources and interlocutors of Christian theology its aims and starting points social theories shaping it and presuppositions grounding it Addressing this question is the classic task of doing contextual theology namely describing and analysing a particular context and considering how this context may best be addressed theologically and practically The question highlights the need for prophetic theology to discern the signs of the time to recognise a moment of truth Kairos and to discern counter movements of the Spirit The question of method opens the door to constructive critique of how

theology has been done and should be done **Library Journal Book Review 1980** Jaques Cattell Press,1983-06 **Gift of Being** Zachary Hayes,2001 In view of the critical environmental problems confronting the modern world reflection on the nature and meaning of the world and on humanity's place in it becomes increasingly important While Christian theology has done this for centuries the present situation calls for a serious rethinking of many issues in the light of contemporary physics biology and cultural history The Gift of Being presents insights of the sciences in a way that is helpful for Christians today Creation theology helps believers come to a stronger sense of their own identity as they come to an awareness of the world This enables them to gain a deeper insight into how they ought to relate to that world if they wish to find meaning in their lives This state of being requires a willingness to distinguish between the medium and the message in approaching the Scriptures It also requires a willingness to take the sciences seriously In The Gift of Being Hayes focuses on traditional questions of creation but also comments on where science is with creation anthropology and destiny He begins by discussing the relation between faith and reason and hence between theology and science from a historical perspective moving to the most current statements of modern Popes He follows with a summary statement of the possible retrieval of the biblical religious insights that can be distinguished from the physical worldview that stands behind much of the biblical material This allows for a discussion of the traditional concept of creation from nothing in the form of a conversation with contemporary physics He then discusses the Christian idea of God as the primal mystery of creative love from whom all of creation flows With these foundational ideas in place Hayes looks at such questions as the origin of humanity and the failure of humanity throughout history He then focuses on the tradition of cosmic Christology Finally the theological issues of the final outcome of God's creation and its history is discussed against the background of the current scientific projections of a future for the cosmos Chapters are Science the Bible and Christianity The Vision of the Hebrew Scriptures Creation and the Christian Scriptures Creation from Nothing The Triune God the Creator Humanity in the Cosmic Context Sin and Evil Christ and the Cosmos and Creation and the Future Zachary Hayes OFM PhD 1932 2014 was a professor of systematic theology at Catholic Theological Union He taught and wrote extensively on matters related to the theological understanding of creation and the relation between theology and science He was on the staff of the Chicago Center for Religion and Science He was the author of Visions of a Future A Study of Christian Eschatology from the New Theology Studies series published by The Liturgical Press Pierre Teilhard de Chardin and Alfred North Whitehead Patrick M.
