**The Harvard Business Review Leader's Handbook** Ron Ashkenas, Brook Manville, 2018-10-16 The one primer you need to develop your leadership skills. Put aside all the overhyped new frameworks, the listicles, the 10 best things you need to succeed as a leader today. The critical leadership practices, the ones that will allow a leader to make the biggest impact over time, are well established. They're about how you create a vision and inspire others to follow it. How you make difficult strategic choices. How you lead innovation. How you get results. These fundamental skills are even more important today as organizations and teams become increasingly networked, virtual, agile, fast-moving, and socially conscious. In this comprehensive handbook, strategy and change experts Ron Ashkenas and Brook Manville distill proven ideas and frameworks about leadership from Harvard Business Review interviews with senior executives and their own experience in the field, all to help rising leaders stand out and have a big impact. In the HBR Leader's Handbook, you'll find concise explanations of proven leadership frameworks from Harvard Business Review contributors such as Clayton M. Christensen and Michael E. Porter. In-depth case studies of senior leaders such as Jim Wolfensohn at the World Bank, Paula Kerger at PBS, Darren Walker at the Ford Foundation, and Jim Smith at Thomson Reuters. Step-by-step guidance to help you understand and start implementing six core leadership practices: building a unifying vision, developing a strategy, getting great people on board, focusing on results, innovating for the future, and leading yourself.

**International Handbook of Leadership for Learning** Tony Townsend, John MacBeath, 2011-07-10 The *International Handbook of Leadership for Learning* brings together chapters by distinguished authors from thirty-one countries in nine different regions of the world.

The handbook contains nine sections that provide regional overviews a consideration of theoretical and contextual aspects system and policy approaches that promote leadership for learning with a focus on educating school leaders for learning and the role of the leader in supporting learning It also considers the challenge of educating current leaders for this new perspective and how leaders themselves can develop leadership for learning in others and in their organisations especially in diverse contexts and situations The final chapter considers what we now know about leadership for learning and looks at ways this might be further improved in the future The book provides the reader with an understanding of the rich contextual nature of learning in schools and the role of school leaders and leadership development in promoting this It concludes that the preposition for between the two readily known and understood terms of leadership and learning changes everything as it foregrounds learning and complexifies rather than simplifies what that word may mean Whereas common terms such as instructional leadership reduce learning to outcomes leadership for learning embraces a much wider developmental view of learning
