The Magic Craft John Mullin,2022-03-11 To say that poetry is a magic craft shall ring of truth despite any contentious remarks by those critical of the classical form or indeed poetry in general A craft it is no doubt yet magic surely flows throughout the rhythm of the rhyme and if properly written it will cast its own mysterious spell upon the reader to enthrall and enchant or bewitch and beguile as the lines and the verses unfold Bearing this in mind we have enabled The Magic Craft to conjure an atmosphere of mysticism and mystery and hold the reader at least during those more inspired moments utterly spellbound However mesmerizing as this may be there is another higher level behind the craft of magic where illusion and fantasy do not play a significant role but where all creation is granted equal recognition along with the underlying cause which precipitated it in the beginning In other words the agent that made it happen An aspect of the cosmic creator might we say Of that supernatural spirit which occupies everything it formed yet is known only to those enlightened enough to deeply ponder such things and find but one solution fits all Therein lies the magic therein the truth And there indeed is the incorruptible immortal reason for this universal state of being in which every part participates be it near or far great or small And which we have explored in our own unique if limited way aboard The Magic Craft Through five parts or cantos encompassing 105 poems and written in the classical style **Vignettes in Verse** Austin Dobson,1873 *Before She*
