The Splintering Frame William J. Scheick,1984 The notion that Wells s best work includes some of his later discursive novels of ideas might seem perverse This focuses on Wells s fiction of the 1920s and 1930s and its goal is to deepen appreciation of Wells as a literary artist Any consideration of Wells s artistry necessarily entails a consideration of his ideas and this book focuses primarily on his concept of time and of the human will **Mythologies of Violence in Postmodern Media** Christopher Sharrett,1999 This anthology examines a number of issues related to violence within the media landscape Violence has been a topic of continued concern within American culture and society Although there have been numerous sociological and historical studies of violence and its origins there is relatively little systematic analysis of violence within media representation even as this issue becomes preeminent within public discourse This anthology examines a number of issues related to violence within the media landscape using various methodologies to suggest the implications of the increasing obsession with violence for postmodern civilization **Science Fiction & Fantasy Book Review Annual** Robert A. Collins,Robert Latham,1988 *Paranoia, the Bomb, and 1950s Science Fiction Films* Cynthia Hendershot,1999 The various monsters that people 1950s sf giant insects prehistoric creatures mutants uncanny doubles to name a few serve as metaphorical embodiments of a varied and complex cultural paranoia BOOK JACKET Hendershot provides both theoretical discussion of paranoia and close readings of sf films in order to construct her argument elucidating the various metaphors used by these films to convey a paranoiac view of a society forever altered by the atomic bomb BOOK JACKET **Do Metaphors Dream of Literal Sleep?** Seo-Young Chu,2011-01-15 In culture and scholarship science fictional worlds are perceived as unrealistic and altogether imaginary Seo Young Chu offers a bold challenge to this perception of the genre arguing instead that science fiction is a form of high intensity realism capable of representing non imaginary objects that elude more traditional realist modes of representation Powered by lyric forces that allow it to transcend the dichotomy between the literal and the figurative science fiction has the capacity to accommodate objects of representation that are themselves neither entirely figurative nor entirely literal in nature Chu explores the globalized world cyberspace war trauma the Korean concept of han and the rights of robots all as referents for which she locates science fictional representations in poems novels music films visual pieces and other works ranging within and without previous demarcations of the science fiction genre In showing the divide between realism and science fiction to be illusory Do Metaphors Dream of Literal Sleep sheds new light on the value of science fiction as an aesthetic and philosophical resource one that matters more and more as our everyday realities grow increasingly resistant to straightforward representation *Twentieth-Century Literary Criticism* Dennis Poupard,1984-03 Presents literary criticism on the works of twentieth century writers of all genres nations and cultures Critical essays are selected from leading sources including published journals magazines books reviews diaries interviews radio and television transcripts pamphlets and scholarly papers **Twentieth-century Literary Criticism** Gale Research Company,1984 Excerpts from criticism of the works of novelists poets playwrights and other creative writers 1900

1960   Building Bridges between Cultures in Ian McDonald's Science Fiction Jerome Winter,2025-09-18 The book argues that Ian McDonald s globalized science fiction functions as a complex hybrid fusion of magic realism and SF literature and culture   Who Shaped Science Fiction? Robert Sabella,2000 This book combines the reading public s interest in science fiction with the always popular biography genre The book contains one hundred concise chapters each containing a brief biography of one of the most influential figures in the development of modern science fiction as well as a timetable detailing the highlights of the person s life and career Included are important editors such as John Campbell Jr and Hugo Gernsback filmmakers such as Gener Roddenberry and Stanley Kubrick and most importantly acclaimed writers ranging from historical figures Jules Verne Edgar Allen Poe Arthur Conan Doyle and H G Wells to modern masters Arthur Clarke Isaac Asimov and Robert Heinlein   *The Mechanics of Wonder* Gary Westfahl,1998 This is a sustained argument about the idea of science fiction by a renowned critic Overturning many received opinions it is both controversial and stimulating Much of the controversy arises from Westfahl s resurrection of Hugo Gernsback for decades a largely derided figure as the true creator of science fiction Following an initial demolition of earlier critics Westfahl argues for Gernsback s importance His argument is fully documented showing a much greater familiarity with early American science fiction particularly magazine fiction than previous academic critics or historians After his initial chapters on Gernsback he examines the way in which the Gernsback tradition was adopted and modified by later magazine editors and early critics This involves a re evaluation of the importance of John W Campbell to the history of science fiction as well as a very interesting critique of Robert Heinlein s Beyond the Horizon one the seminal texts of American science fiction In conclusion Westfahl uses the theories of Gernsback and Campbell to develop a descriptive definition of science fiction and he explores the ramifications of that definition The Mechanics of Wonder will arouse debate and force the questioning of presuppositions No other book so closely examines the origins and development of the idea of science fiction and it will stand among a small number of crucial texts with which every science fiction scholar or prospective science fiction scholar will have to read   **The Cultural Imaginary of Terrorism in Public Discourse, Literature, and Film** Michael Frank,2017-06-14 This study investigates the overlaps between political discourse and literary and cinematic fiction arguing that both are informed by and contribute to the cultural imaginary of terrorism Whenever mass mediated acts of terrorism occur they tend to trigger a proliferation of threat scenarios not only in the realm of literature and film but also in the statements of policymakers security experts and journalists In the process the discursive boundary between the factual and the speculative can become difficult to discern To elucidate this phenomenon this book proposes that terror is a halfway house between the real and the imaginary For what characterizes terrorism is less the single act of violence than it is the fact that this act is perceived to be the beginning or part of a potential series and that further acts are expected to occur As turn of the century writers such as Stevenson and Conrad were the first to point out this gives terror a fantastical dimension a fact reinforced by the clandestine nature of both

terrorist and counter terrorist operations Supported by contextual readings of selected texts and films from The Dynamiter and The Secret Agent through late Victorian science fiction to post 9 11 novels and cinema this study explores the complex interplay between actual incidents of political violence the surrounding discourse and fictional engagement with the issue to show how terrorism becomes an object of fantasy Drawing on research from a variety of disciplines The Cultural Imaginary of Terrorism will be a valuable resource for those with interests in the areas of Literature and Film Terrorism Studies Peace and Conflict Studies Trauma Studies and Cultural Studies **Young Adult Resources Today** Don Latham,Melissa Gross,2014-05-21 Young Adult Resources Today Connecting Teens with Books Music Games Movies and More is the first comprehensive young adult library services textbook specifically written for today s multidimensional information landscape The authors integrate a research focused information behavior approach with a literature focused resources approach and bring together in one volume key issues related to research theory and practice in the provision of information services to young adults Currently no single book addresses both YA information behaviors and information resources in any detail instead books tend to focus on one and give only cursory attention to the other Key features of this revolutionary book include its success in Integrating theory research and practiceIntegrating implications for practice throughout the bookIntegrating knowledge of resources with professional practice as informed by researchIntegrating both print and electronic formats throughout within the resource chapters including websites and social media Latham and Gross accomplish all this while paying particular attention to the socially constructed nature of young adulthood diversity YA development and multiple literacies Their coverage of information landscapes covers literature with detailed coverage of both genres and subgrenres movies magazines web sites social media and gaming The final chapter cover navigating information landscapes focusing on real and virtual YA spaces readers advisory programming and collaboration Special attention is paid to program planning and evaluation **Young Adult Science Fiction** Charles William Sullivan,1999-03-30 At the close of the nineteenth century American youths developed a growing interest in electricity and its applications machines and gadgetry When authors and publishers recognized the extent of this interest in technology they sought to create reading materials that would meet this market need The result was science fiction written especially for young adults While critics tended to neglect young adult science fiction for decades they gradually came to recognize its practical and cultural value Science fiction inspired many young adults to study science and engineering and helped foster technological innovation At the same time these works also explored cultural and social concerns more commonly associated with serious literature Nor was young adult science fiction a peculiarly American phenomenon authors in other countries likewise wrote science fiction for young adult readers This book examines young adult science fiction in the U S and several other countries and explores issues central to the genre The first part of the book treats the larger contexts of young adult science fiction and includes chapters on its history and development Included are discussions of science fiction for young adults in the U S and in Canada

Great Britain Germany and Australia These chapters are written by expert contributors and chart the history of young adult science fiction from the nineteenth century to the present The second section of the book considers topics of special interest to young adult science fiction Some of the chapters look at particular forms and expressions of science fiction such as films and comic books Others treat particular topics such as the portrayal of women in Robert Heinlein s works and representations of war in young adult science fiction Yet another chapter studies the young adult science fiction novel as a coming of age story and thus helps distinguish the genre from science fiction written for adult readers All chapters reflect current research and the volume concludes with extensive bibliographies   *Movies in America* William Kuhns,1975 This work tries to follow two main threads of development the sophistication and broadening of the movies as an art form and the complex interrelationships between a period and the movies of that period   **St. James Guide to Science Fiction Writers** Jay P.
