*Reimagining Science Fiction* Gary Westfahl, 2025-10-31 In the first decades of the twenty first century science fiction literature has been transformed in many ways as the genre has reacted to the dominating influence of films television and video games the growing popularity of fantasy the rise of young adult science fiction and graphic novels the impact of the internet and social media and the increasing diversity of the authors characters and often non Western settings The essays making up this volume address these and other changes in two ways Some consider new critical approaches to science fiction in response to changing circumstances including analyses of how evolutionary psychology explains today s science fiction the emerging subgenre of cli fi exploring the effects of climate change the use of science fiction in different areas of the college curriculum and a statistical method for identifying works of science fiction Others examine significant new authors such as Nalo Hopkinson Charles Stross Paolo Bacigalupi Suzanne Collins Mira Grant John Sandford and David Mura Contributors include science fiction author Howard V Hendrix and experts in the fields of Chinese studies gender studies literature philosophy and religion

**Reading the Romantic Ridiculous** Andrew McInnes, Rita J. Dashwood, 2024-09-02 Reading *The Romantic Ridiculous* aims to take Romantic Studies from the sublime to the ridiculous Building on recent work that decentres the myth of the solitary genius this duograph theorises the ridiculous as an alternative affect to the sublime privileging collective laughter above solitude and selfishness and reflecting on these ideals through the practice of joint authorship Tracing the history of the ridiculous through Romantic and post Romantic debates about sublimity from the rediscovery of Longinus and the aesthetic theories of Burke and Kant to contemporary queer and postcolonial theory interested in silliness lowness and vulnerability Reading the *Romantic Ridiculous* explores Romanticism s surprising commitments to ridiculousness in canonical material by writers such as Samuel Taylor Coleridge Jane Austen and Charles Lamb as well as lesser known material from joke books to children s literature In theory and practice this duograph also considers the legacies of Romanticism and ridiculousness today analysing their influence on independent film sitcoms and young adult fiction as well as their place in higher education now

**Crisis and the Culture of Fear and Anxiety in Contemporary Europe** Carmen Zamorano Llena, Jonas Stier, Billy Gray, 2023-08-01 The accrument of crises over the last two decades with their particular manifestations in the European context has evoked the feeling of living in exceptional times as captured in the recurrent claim that we live in the age of anxiety The main aim of this collection is to analyse from a multidisciplinary perspective the causes and consequences of the current dominance of the discourse of fear anxiety and crisis through the experience of distinct and often interdependent moral panics in twenty first century Europe With its multidisciplinary approach this volume sheds light on the need to view the interrelationship between different crises and their associated affects as crucial in attaining a more nuanced understanding of the aetiology and effects of the current age of anxiety This multidisciplinary scrutiny of the interrelationship of twenty first century fears anxiety and crises signals an

original engagement with these complex phenomena in order to make their emergence and profound effects on contemporary society more comprehensible. The timeliness of the thematic focus and the rigorous in depth analyses make this collection relevant to students and academics within the fields of sociology, literary and cultural studies, political science and anthropology as well as to those in European studies and global studies.

**Dystopias and Utopias on Earth and Beyond** Douglas A. Vakoch, 2021-04-29. Caught as we are in a grave climate crisis that seems more irreversible with every passing year, our literary portrayals of the future often feature the dystopian collapse of the world as we know it. Science fiction explores how we got here while pointing toward a more hopeful path forward. From an ecofeminist perspective, a core cause of our current ecological catastrophe is the patriarchal domination of nature playing out in parallel with the oppression of women. As an alternative to dystopian futures that seem increasingly inevitable, ecofeminist science fiction helps us conjure utopias that promote environmental sustainability based on more egalitarian human relationships.

**Dystopias and Utopias on Earth and Beyond: Feminist Ecocriticism of Science Fiction** explores the fictional worlds of such canonical novelists as Margaret Atwood, Octavia Butler, Ursula K. Le Guin, Doris Lessing, and Joan Slonczewski, as well as those of lesser known science fiction writers, as they collectively probe humanity's greatest existential threats. Contributors from five continents provide compelling analyses of far future dystopias on Earth that are all too easy to imagine becoming reality if humankind's current trajectory continues, as well as provocative insights into science fiction utopias set on idyllic planets orbiting distant stars which offer liberatory alternatives that might someday be actualized in the real world. By examining the links between the destruction of the environment and the domination of women, *Dystopias and Utopias on Earth and Beyond* provides the tools to counteract those intertwined oppressions, helping create a foundation for a truly habitable world.

**Key Concepts in Contemporary Popular Fiction** Bernice M. Murphy, 2017-03-01. *Key Concepts in Contemporary Popular Fiction* represents an invaluable starting point for students wishing to familiarise themselves with this exciting and rapidly evolving area of literary studies. It provides an accessible, concise and reliable overview of core critical terminology, key theoretical approaches and the major genres and sub genres within popular fiction. Because popular fiction is significantly shaped by commercial forces, the book also provides critical and historical contexts for terminology related to e-books, e-publishing and self-publishing platforms. By using a focus in particular on post-2000 trends in popular fiction, the book provides a truly up to date snapshot of the subject area and its critical contexts.

**The Hall of Homeless Gods** John Michael Greer, 2024-09-24. A cli-fi thriller in a gritty future. Meet Jerry Shimizu. He's a tough, two-fisted fixer who works for the boss of Habitat Four, one of five Japanese refugee communities built on abandoned oil platforms off the coast of the United States in a hard-edged dystopian future of technological decline and climate chaos. His beat is Shoreside, the bustling, brawling, anything-goes temporary port on the beach, two miles from the Habitats. He's trying to bust a robbery ring that's preying on Shoreside gambling money when he encounters a mysterious woman with strange mental abilities. Before long, he's having to dodge hoods sent after him.

by Shoreside's crime lord agents of the US government and spies from its archrival the European Union. Does all this have anything to do with rumors of a secret supercomputer project in the now abandoned country inland from Shoreside, a project that once left a string of corpses behind it and now might yield a fabulous trove of old world technology? Jerry's going to find out if he can survive long enough.

**Dystopian States of America** Matthew B. Hill, 2022-09-13 Dystopian States of America is a crucial resource that studies the impact of dystopian works on American society including ways in which they reflect our deep and persistent fears about environmental calamities, authoritarian governments, invasive technologies, and human weakness. Dystopian States of America provides students and researchers with an illuminating resource for understanding the impact and relevance of dystopian and apocalyptic works in contemporary American culture. Through its wide survey of dystopian works in numerous forms and genres, the book encourages readers to connect with these works of fiction and understand how the catastrophically grim or disquieting worlds they portray offer insights into our own current situation. In addition to providing more than 150 encyclopedia articles on a large and representative sample of dystopian apocalyptic narratives in fiction, film, television, and video games including popular works that often escape critical inquiry, Dystopian States of America features a suite of critical essays on five themes: war, pandemics, totalitarianism, environmental calamity, and technological overreach that serve as the foundation for most dystopian worlds of the imagination. These offerings complement one another, enabling readers to explore dystopian conceptions of America and the world from multiple perspectives and vantage points.

*A Climate Carol and Other CLI-Fi Short Stories* Richard Friedman, 2018-11-20 Climate fiction author Richard Friedman takes the reader on a journey from the bottom of the Atlantic Ocean to the edges of the universe with his collection of short stories. A narcissistic east coast billionaire receives a visit from three ghosts in a contemporary spin of a timeless classic. Judgment Day asks if humanity is worth saving. A family takes a tour through the Grand Museum of the Universe. In The Docent, the crew of the space shuttle witnesses a nuclear holocaust. In The World Burns Below, enjoy these and more stories of global warming, hope, redemption, and a little humor too. Richard is donating part of the proceeds from sales of this book to The Climate Reality Project.

**Reading Underwater Wreckage** Killian Quigley, 2022-12-15 Presenting a novel and needed theoretical model for interpreting shipwrecks and other drowned fragments, the histories they tell, and the futures they presage as junctures of artefact and ecofact, human remains, and emergent ecologies, this book puts the environmental humanities and particularly multispecies studies in close conversation with literary studies, history, and aesthetic theory. Earth's oceans hold the remains of as many as three million shipwrecks, some thousands of years old. Instead of approaching shipwrecks as either artefacts or ecofacts, this book presents a third frame for understanding one inspired by the material dynamism of sea floor stuff. As they become encrusted by oceanic matter, some of it living, some inanimate, anthropic fragments participate in a distinctively submarine form of material relation. That relation comprises a wide and sometimes incalculable array of things, lives, times, and stories. Drawing from several

centuries of literary philosophical and scientific encounters with encrustations as well as from some of the innumerable encrusted art forms that inhabit the sea floor this book serves anyone in search of better ways to perceive describe and imagine submarine matters

**Afterglow** Grist,2025-10-07 Hopeful and forward looking futuristic short stories that explore how the power of storytelling can help create the world we need This is a glorious book that challenges our conceptions of bookmaking as much as it questions our conceptions of world building We as earthlings will be better to the earth after experiencing this book That is not hyperbole New York Times bestselling author Kiese Laymon Afterglow is a stunning collection of original short stories in which writers from many different backgrounds envision a radically different climate future Published in collaboration with Grist a nonprofit media organization dedicated to telling stories of climate solutions these stirring tales expand our ability to imagine a better world Inspired by cutting edge literary movements such as Afrofuturism hopepunk and solarpunk Afterglow imagines intersectional worlds in which no one is left behind where humanity prioritizes equitable climate solutions and continued service to one s community Whether through abundance or adaptation reform or a new understanding of survival these stories offer flickers of hope even joy as they provide a springboard for exploring how fiction can help create a better reality Afterglow welcomes a diverse range of new voices into the climate conversation to envision the next 180 years of equitable climate progress A creative work rooted in the realities of our present crisis Afterglow presents a new way to think about the climate emergency one that blazes a path to a clean green and more just future

Follansbee,2018-02-15 What if the key to your past lay at the South Pole In 2261 Sento a beautiful intelligent tormented young woman is obsessed by Isorropia a city in Antarctica that is half myth half legend Surviving a shipwreck Sento resolves to trek south with immigrants on a suicidal one way journey across the melting ice She leads the pilgrims across a raging river weeps beneath a massive natural sculpture draped with blue ice and defends an endangered fur seal Meanwhile in the secretive city First Citizen Elita Soares watches the growing threat of the pilgrim train She wants no more climate refugees within the city walls When Elita learns her half sister may be among the immigrants she vows to stop the newcomers at all costs Will the pilgrims reach the fabled city before Antarctica s harsh climate kills them And why is Elita afraid of her half sister City of Ice and Dreams is a dystopian thriller full of action and suspense The author is a winner of awards in the Writers of the Future program including an honorable mention for his novelette The Mother Earth Insurgency the first book in this series The other books in the climate fiction series Tales From A Warming Planet include Carbon Run and Restoration Categories dystopian thrillers adventure science fiction climate fiction

Contemporary Fiction and Climate Uncertainty Marco Caracciolo,2022 This open access book argues that storytelling is an important resource in coming to terms with the loss of the feeling of living a grounded existence where the future remains relatively stable and predictable Faced with the specter of climate catastrophe we lose confidence in the future a well documented response in the environmental movement for example Yet stories and in particular sophisticated fictional stories

can help us negotiate that uncertainty they offer affective and imaginative tools that channel the instability of our climate future and invite audiences to accept its fundamental uncertainty In all this book represents a serious contribution to the environmental humanities that brings a flexible formal approach to bear on central questions of our time Its commentary on contemporary works of prose and digital narrative is an aid for navigating climate uncertainty and appreciating the more than human scale but also the tragic ramifications of the ecological crisis The eBook editions of this book are available open access under a CC BY NC ND 4 0 licence on bloomsburycollections com Open access was funded by The European Research Council and the University of Ghent

**Fiction and the Sixth Mass Extinction** Jonathan Elmore,2020-04-01 Fiction and the Sixth Mass Extinction is one of the first works to focus specifically on fiction s engagements with human driven extinction Drawing together a diverse group of scholars and approaches this volume pairs established voices in the field with emerging scholars and traditionally recognized climate fiction cli fi with texts and media typically not associated with Anthropocene fictions The result is a volume that both engages with and furthers existing work on Anthropocene fiction as well as laying groundwork for the budding subfield of extinction fiction This volume takes up the collective insistence on the centrality of story to extinction studies In various and disparate ways each chapter engages with the stories we tell about extinction about the extinction of animal and plant life and about the extinction of human life itself Answering the call to action of extinction studies these chapters explore what kinds of humanity caused this event and what kinds may live through it what cultural assumptions and values led to this event and which ones could lead out of it what relationships between human life and this planet allowed the sixth mass extinction and what alternative relationships could be possible

[The New Wilderness](#) Diane Cook,2020-08-11 Timeless a brutal beguiling fairy tale At its core the novel is about motherhood and about the world we make or unmake for our children Washington Post Bea s five year old daughter Agnes is slowly wasting away consumed by the smog and pollution of the overdeveloped metropolis that most of the population now calls home If they stay in the city Agnes will die There is only one alternative the Wilderness State the last swath of untouched protected land where people have always been forbidden Until now Bea Agnes and eighteen others volunteer to live in the Wilderness State guinea pigs in an experiment to see if humans can exist in nature without destroying it Living as nomadic hunter gatherers they slowly and painfully learn to survive in an unpredictable dangerous land bickering and battling for power and control as they betray and save one another But as Agnes embraces the wild freedom of this new existence Bea realizes that saving her daughter s life means losing her in a different way The farther they get from civilization the more their bond is tested in astonishing and heartbreaking ways At once a blazing lament of our contempt for nature and a deeply humane portrayal of motherhood and what it means to be human The New Wilderness is an extraordinary novel from a one of a kind literary force Gripping fierce terrifying examination of what people are capable of when they want to survive in both the best and worst ways Loved this Roxane Gay via Twitter Could this be the great climate change novel of our time Buzz is building fast for the epic debut novel
