Then after personal experiences with enforced interrogation he escaped from a Nazi prison and certain death to England where he was able as Chief of the Psychological Department of the Netherlands Forces to observe and study coercive methods officially After the war he came to the United States As more and more cases of thought control brainwashing and mental coercion were disclosed Cardinal Mindszenty Colonel Schwable Robert Vogeler and others his interest grew It was Dr Meerloo who coined the word menticide the killing of the spirit for this peculiar crime It is Dr Meerloo s position that through pressure on the weak points in men s makeup totalitarian methods can turn anyone into a traitor And in *The Rape of the Mind* he goes far beyond the direct military implications of mental torture to describing how our own culture unobtrusively shows symptoms of pressurizing people s minds He presents a systematic analysis of the methods of brainwashing and mental torture and coercion and shows how totalitarian strategy with its use of mass psychology leads to systematized rape of the mind He describes the new age of cold war with its mental terror verbocracy and semantic fog the use of fear as a tool of mass submission and the problem of treason and loyalty so loaded with dangerous confusion *The Rape of the Mind* is written for the interested layman not only for experts and scientists
