Cardinal John Henry Newman's historical examination of Arianism the belief that Jesus Christ is the Son of God and thus distinct and subordinate to God is a superbly detailed account of this early Christian movement Arius a priest originating from North Africa was the founder of the Arian belief system It was through the work of Arius that many converted to Christianity During the era Egypt and much of northern Africa remained under the control of pre Christian Rome belief was therefore dangerous with many persecuted and put to death for following the Christian creed This book discusses the Arian movement after its initial establishment details of its practices organization and churches occupy the first part The Fourth Century AD was a time of upheaval and reform in the Christian faith with differing groups opposed to one another Arius found himself denounced at the First Council of Nicaea and the beliefs he promoted were declared heresy the Ante Nicene church accordingly taught alternate doctrines While still alive Arius was cleared of his crimes against the faith it was Arian priests that oversaw the historic baptism of Roman Emperor Constantine Yet Arius was again accused of heretical beliefs posthumously After this renewed declaration internecine conflicts between Christian believers and those deemed heretical continued for many centuries Today the Arian beliefs concerning Christ are considered to be obsolete and has been formally declared a heresy by many major denominations of Christianity However John Henry Newman correctly surmised that study of the Arians would bear fruit thus this book offers great historical insight into both the Arians and the politics of the early Christian church This edition contains the original tables notes and appendices added by Newman allowing the reader the fullest comprehension of his investigations

Arians of the 4th Century John Henry Newman, 1883 *The Arians of the Fourth Century* Bl John Henry Newman, John Newman, 2014-04-14 Newman's first and most deeply researched book *The Arians of the Fourth Century* is a major achievement in both social and theological history As social history it gives a detailed account of the moral and ideological temperament of the Arians in the Nicene era and the historical circumstances that caused their heresy to become unusually oppressive and politically powerful As a major contribution to theological history it was in the course of composing *The Arians* that Newman first conceived his theory of the

development of Christian Doctrine which stimulated his conversion to Catholicism This emerges from the book s in depth study of Trinitarian doctrine in the Early Church and in the councils of the fourth century Most important however is Newman s deeply influential concluding essay On Consulting the Faithful which takes up the apparent problem that the Church proper seems to have fallen into heresy during the Arian ascendancy In answer Newman provides historical evidence that the faithful of Christ maintained orthodox doctrine even in the Church s darkest hour He argues for the indefectibility of the Church and a nuanced theology of the *sensus fidelium* that impacted the Second Vatican Council s ecclesiology

Arians and Vandals of the 4th-6th Centuries John R. C. Martyn, David O'Brien, 2020-12-15 As a background to this study of the Arians and Vandals in North Africa and their impact on the Catholic Church three books have been written recently by John Martyn investigating the same period late sixth century and the same country They are firstly Pope Gregory s Letters published with commentary and translation by P I M S three vols 2 2004 see introduction pp 32 42 and epp 1 74 2 36 and 11 7 and for the Manichean heresy see epp 2 31 5 7 and 6 14 Next the Life of Saint Gregory bishop of Agrigento published with his commentary and translation by Edwin Mellen 2004 is set in North Africa in chapters 7 30 and also covers the main schisms of that time Finally in a book on Saint Leander Archbishop of Seville soon to be published by Lexington Books in Maryland he shows that Leander s parents and baby sister were forced to flee from their home in Cartagena to Carthage from where the Vandals had recently been expelled Note also his review of *L Afrique Vandale et Byzantine Ie Partie* Paris 2002 which was published in *Parergon* 21 1 2004 pp 155 157 and involved a study of the same schisms history and archaeology of North Africa
