The Art And Science Of Personal Magnetism:

The Art And Science Of Personal Magnetism Theron Q. Dumont,2012 It is a strange and almost amusing fact that there should be at the same time on the part of the general public such a general acceptance of the existence of personal magnetism on the one hand and such an ignorance of the nature of this wonderful force on the other hand In short while everyone believes in the existence of personal magnetism scarcely anyone possesses knowledge of the real nature of the same much less a working knowledge of its principles of application This book gives you the key to the secret of personal magnetism but it will still remain up to you to determine just what degree of success you will attain The best tools and instructions as to how to use them are provided but you will have to do the rest yourself Success must and will be yours if you will follow the instructions carefully persistently and perseveringly [The Art And Science Of Personal Magnetism](#) Theron Q Dumont,2010-11-01 Book Jungle provides classic literature in a modern format A Thousands of historical titles are now readily available to the public A Because of the original condition of many of these historical manuscripts imperfections are possible A The value of these manuscripts lies in their historical significance and vivid accounts of the world from thousands of authors and storytellers A Book Jungle is proud to bring these rare volumes back into public use and to make them available to everyone AA **The Art and Science of Personal Magnetism** Theron Q. Dumont,2009-08 2009 reprint of the 1913 third edition William Walker Atkinson 1862 1932 was an attorney merchant publisher and author as well as an occultist and an American pioneer of the New Thought movement He is also known to have been the author of the pseudonymous works attributed to Theron Q Dumont and Yogi Ramacharaka Due in part to Atkinson s intense personal secrecy and extensive use of pseudonyms he is now largely forgotten despite having obtained mention in past editions of Who s Who in America Religious Leaders of America and several similar publications and having written more than 100 books in the last 30 years of his life His works have remained in print more or less continuously since 1900 During the 1910s Atkinson put his attention into another pseudonym that of Theron Q Dumont This entity was supposed to be French and his works written in English and published in Chicago combined an interest in New Thought with ideas about the training of the will memory enhancement and personal magnetism *The Art and Science of Personal Magnetism* is a product of this period *The Art And Science of Personal Magnetism* Theron Q. Dumont,2005 Introduction to *The Art and Science of Personal Magnetism* I take pleasure in presenting to many American students who will acquire possession of copies of this book these practical lessons on the art and science of Personal Magnetism These chapters contain the gist of the lessons taught by me in classes and to individuals in my courses of personal instruction conducted by me here in Paris for the past eighteen years In my personal class work of course I adapt the instruction to the special requirements of my individual students which I cannot do in the case of general lessons in printed form But notwithstanding this I feel that I have condensed into these pages the essence of my methods and principles of practice so that any student of average intelligence may readily grasp assimilate and

apply the same with success at least I feel that if the student does not accomplish this it will be his or her own fault not that of myself In introducing this book I wish to express my obligations to Mr L N D an American student of mine here in Paris who has kindly transformed my rather stilted guidebook English into the plain simple form desirable for a book designed for the general public I feel particularly indebted to him for supplying the idiomatic American man on the street terms thus reproducing the conversational style which I use in all my lessons in French but which my book English rendered impossible in this case without the kindly assistance of this worthy gentleman With hand on heart I send to my new American audience the sincere regards and most earnest wishes for success of their solicitous teacher Theron Q Dumont Paris France August 26 1913

The Art and Science of Personal Magnetism William W. Atkinson, 2015-12-05 In THE ART AND SCIENCE OF PERSONAL MAGNETISM a book that became a best seller of its time Atkinson writing under the pen name Theron Q Dumont teaches the student the existence of a Science that he calls the science of Personal Magnetism that explains a certain personal power influence or atmosphere on the part of certain individuals which enables the possessor to attract influence dominate or control others has been held by the race from the earliest days of written history Atkinson teaches how to obtain that Personal Magnetism thought a series of theories and exercises that will make the possessor of the new talent a successful individual

The Art and Science of Personal Magnetism Theron Q Dumont, 2017-09-26 Excerpted Text The fact is that every person generates and throws off a certain degree varying among different individuals of personal magnetism which affects the minds of other persons coming within the field of its influence Not only does each person emanate and project a certain amount or degree of personal magnetism additionally each person is also constantly surrounded by a field of personal magnetic influence a personal atmosphere so to speak This personal atmosphere affects to a greater or lesser degree other persons coming within its field of influence This personal atmosphere varies greatly in degree of strength extent and general character among different individuals The average person has but a weak personal atmosphere which extends but a short distance on all sides of him while the strong characters of the race are surrounded by a widely spread personal atmosphere of great power especially when they are aroused by any strong emotion feeling or desire The personal atmosphere of those strong individuals who are generally recognized as leaders of the race usually extends great distances from the person and is fairly saturated with strong dynamic magnetism which impresses itself strongly upon those coming within their field of influence Some may raise the question that if as I have said each and every person is possessed of personal magnetism then why should any one bother any more about the matter or study the subject of personal magnetism at all Such a question and it is frequently raised for that matter causes a smile to manifest on the features of those who have knowledge of the subject so childish does it seem to them While it is true that each and every person is possessed of personal magnetism to some degree it is equally true that the majority of persons have but a weak magnetic force and that often of a negative or undesirable character And it is a fact positively known to those who have mastered the subject that even the

weakest and most negative person may so develop his or her personal magnetism as to gradually acquire the same degree and character of magnetism as that possessed by many individuals originally far in advance of them in magnetic influence One may completely change the character of his personal magnetism from negative to positive from undesirable to desirable by careful study and practice along the lines which I shall lay down in this book Moreover it is possible for any person possessing sufficient will perseverance and determination to develop from a puny state of magnetism into a condition of giant magnetic powers But this latter requires determination constant practice until a certain stage is reached and an indomitable will While any one may easily increase his or her degree of power of personal magnetism and still more easily change the character of one s personal atmosphere the higher prizes are reserved for those who will persevere to the end and continue faithful in the exercises This of course is true not only of personal magnetism but also of every other thing worth having There is no royal road to anything worth having We must work for what we get The prizes are not for the weaklings and triflers but for the persistent earnest individuals who will hang on until they succeed
