Arts - Therapies - Communication European Arts Therapy Line Kossolapow, Sarah Scoble, 2005 Stipulation of a present actual position of Art Therapy however inevitably leads to further thoughts about ongoing development Everything required for the theoretical practical founding of a European Art Therapy as discipline still has to be done including construction of a communicative bridge to partners in other continents or countries This development work has two strands of development One follows a more theoretical direction with European Art Therapy as a research and teaching subject as an objective in view The other is directed more towards practical fieldwork which in turn can lead to the establishment of funds of experience as well as quantitative and qualitative investigations and thus to theoretical methodical statements In the contributions on hand both connections pervade Naturally the individual articles in this collection do not fully expound the volume of art therapeutic work throughout Europe but they are a source of information and inspiration for the user from theory and or practice who can then find his particular niche with his own specific interests within the cross section and subsequently continue the discourse spatially and objectively

Working in Mental Health Peter Phillips, Tom Sandford, Claire Johnston, 2013-02-28 A paradigm shift in the ways in which mental health services are delivered is happening both for service users and for professional mental healthcare workers The landscape is being changed by a more influential service user movement a range of new community based mental healthcare programmes delivered by an increasing plurality of providers and new mental health policy and legislation Written by a team of experienced authors and drawing on their expertise in policy and clinical leadership Working in Mental Health Practice and Policy in a Changing Environment explains

how mental health services staff can operate and contribute in this new environment Divided into three parts the first focuses on the socio political environment incorporating service user perspectives The second section looks at current themes and ways of working in mental health It includes chapters on recovery the IAPT programme and mental healthcare for specific vulnerable populations The final part explores new and future challenges such as changing professional roles and commissioning services The book focuses throughout on the importance of public health approaches to mental healthcare This important text will be of interest to all those studying and working in mental healthcare whether from a nursing medical social work or allied health background

Singapore's Health Care System K. E. T. Al SATKU,2015-11-13 How did Singapore's health care system transform itself into one of the best in the world It not only provides easy access but its standards of health care not only in curative medicine but also in prevention are exemplary Fifty years ago the infant mortality rate IMR was 26 per thousand live births today the IMR is 2 Life expectancy was 64 years then today it is 83 The Singapore Medicine brand is trusted internationally and patients are drawn to Singapore from all over the world And while many countries struggle to finance their health care Singapore has developed a health care financing framework that makes health care affordable for its people and gives sustainability to the health care system Reliability is provided by a professional workforce that seeks to continually learn improve and become ever more proficient with cutting edge technology while emphasizing the relational aspects of health care by nurturing compassion and maintaining high standards of integrity Convenience and safety are enhanced by a unifying IT system that enables the portability of medical records across health care institutions All these have been achieved not by chance but by careful planning strong leadership and dedicated people who are prepared to learn from Singapore's own experience while adapting best practices from around the world But the system is not without challenges not least those of an aging population and an increasing market influence This book provides a fascinating insight into the development of Singapore's health care system from the early days of fighting infections and providing nutrition supplementation for school children to today's management of lifestyle diseases and high end tertiary care It also discusses how the system must adapt to help Singaporeans continue to live well live long and with peace of mind

In Recovery Nora Jacobson,2004 For hundreds of years people diagnosed with mental illness were thought to be hopeless cases destined to suffer inevitable deterioration Beginning in the early 1990s however providers and policymakers in mental health systems came to promote recovery as their goal But what does recovery truly mean For example to consumers of mental health services it implies empowerment and greater resources dedicated to healing to HMOs it can suggest a means of cost savings when benefits cease upon recovery This book considers recovery from multiple angles Traditionally Nora Jacobson notes recovery was defined as symptom abatement or a return to a normal state of health but as activists mental health professionals and policymakers sought to develop recovery oriented systems other meanings emerged Jacobson s analysis describes the complexes of ideas that have defined recovery in various contexts over time The first meaning recovery as evidence involves the theories statistics therapies legislation and myriad other factors that constituted the first one hundred years of mental health services provision in the United States Recovery as experience brought the voices of patients into the conversation while recovery as ideology drew on both recovery as evidence and recovery as experience to rally support for specific approaches and service delivery models This in turn became the basis for recovery as policy which developed as assorted representative bodies such as commissions and task forces planned reforms of the mental health system Finally recovery as politics emerged as reformers confronted harsh economic realities and entrenched ideas about evidence experience and ideology Throughout Jacobson draws on her research in Wisconsin a state

with a long history of innovation in mental health services Her study there included several years of fieldwork and interviews with the government appointed groups charged with making recovery policy Thus In Recovery also provides an inside account of the process of policy development and implementation *Continuity Amid Chaos* Robin Gauld,2003 Robin Gauld brings together health care practitioners from the New Zealand health sector in order to provide a ground floor view of how the island nation s health care is managed and delivered The material primarily consists of case studies of institutions and programs with which the authors have firsthand experience The studies address topics such as the management of information systems the use waiting lists the impact of hospital restructuring on nursing and managing a rural community health trust A few of the papers are broader in scope offering overviews of particular health sectors or critiquing existing policy assumptions **Biennial Report** Wisconsin.
