Spiked How Chain Management Corrupted Americas Oldest Newspaper:

Spiked Andrew Kreig,1988 *American Journalism* W. David Sloan,Lisa Mullikin Parcell,2014-01-10 News consumers made cynical by sensationalist banners AMERICA STRIKES BACK THE TERROR OF ANTHRAX and lurid leads might be surprised to learn that in 1690 the newspaper Publick Occurrences gossiped about the sexual indiscretions of French royalty or seasoned the story of missing children by adding that barbarous Indians were lurking about before the disappearance Surprising too might be the media s steady adherence to if continual tugging at its philosophical and ethical moorings These 39 essays written and edited by the nation s leading professors of journalism cover the theory and practice of print radio and TV news reporting Politics and partisanship press and the government gender and the press corps presidential coverage war reportage technology and news gathering sensationalism each subject is treated individually Appropriate for interested lay persons students professors and reporters Instructors considering this book for use in a course may request an examination copy here

Estimating Equilibrium Exchange Rates John Williamson,1994 The problems of exchange rate misalignments and the resulting payments imbalances have plagued the world economy for decades At the Louvre Accord of 1987 the Group of Five industrial countries adopted a system of reference ranges for exchange rate management influenced by proposals of C Fred Bergstan and John Williamson for a target zone system The reference range approach has however been operated only intermittently and half heartedly and questions continue to be raised in policy and scholarly circles about the design and operation of a full fledged target zone regime This volume with chapters by leading international economists explores one crucial issue in the design of a target zone system the problem of calculating Williamson s concept of the fundamental equilibrium exchange rate FEER Williamson contributes an overview of the policy and analytic issues and a second chapter on his own calculations

Media, Profit, and Politics Joe Harper,Thom Yantek,2003 A compilation of essays and commentary delivered at the second annual Kent State University Symposium on Democracy this work recognizes and considers the differences that arise when the competitive forces of commerce clash with the demand for the open availability of information in a democratic society The conflicting roles of advocate initiator and objective reporter for journalists who cover community politics the role of the news media in forming public attitudes toward things political and their role in affecting voter nonparticipation the role of financial considerations in the news media s attempt to provide citizens with needed news and perspective on political affairs and particularly the role of the conglomeration of ownership of news media organizations are a few of the topics discussed in this volume

The Menace of the Corporate Newspaper David Demers,1996 This text studies the origins and effects of the corporate form of newspaper organisation It explores the controversies surrounding corporate ownership through a review of the literature as well as by means of empirical research

History and Future of Mass Media David Demers,2007 This book argues that the no Marxists mostly have it wrong Although corporate media are structurally organized to maximize profits and produce content that generally helps elites

achieve their goals this does not mean corporate media have less capacity to facilitate social change than entrepreneurial or other forms of media In fact historical evidence and comparative critical studies presented in this book show that mass media become more not less critical of dominant power groups institutions and value systems as they become more corporatized This proposition is part of a larger theoretical model that integrates the role of both social structure and human agency in explaining the persistence of modern capitalism The structural part of the theory also enables scholars to make predictions about the future of mass media including the ideas that the Internet is stealing some of the mediating power of traditional mass media and the market power of global media will grow in absolute terms but will shrink in relative terms because of increasing competition from new and traditional media

American Journalism History William D. Sloan, 1989-04-24 Sloan has undertaken to fill a long standing gap in the study of journalism history He has compiled a comprehensive annotated bibliography of works pertaining to United States journalism history from colonial to contemporary times Some 2 600 separate entries provide information on dissertations articles monographs books and reference materials published between 1810 and 1988 Overall this is a useful stimulating volume that pulls together a diverse collection of materials It should enrich the teaching and writing of journalism history

American Journalism The history of the American news media has been a popular subject with journalists popular writers and historians since the early years of the Republic and it continues to attract widespread interest Until now however no complete bibliography of these historical materials has been available This comprehensive work provides access to the existing literature on all types of journalism from newspapers to television In his introduction Sloan reviews the different approaches to journalism history that have characterized writing in the field The bibliography is divided by historical period and general theme into 16 sections Carefully annotated it presents concise summaries and bibliographic information for some 2 600 articles books research guides and reference works published between 1810 and 1988 More than 100 journals are included Cross referencing and a detailed index will help the reader locate materials on specific topics as well as those with wider application An invaluable tool for historians and other scholars engaged in research this book will also serve as a useful reference for courses in mass communications and the history of journalism

Spiked Andrew Kreig, 1987 **American Journalism** , 1989 **Structural Pluralism, Intermedia Competition, and the Growth of the Corporate Newspaper in the United States** David Demers, 1994 Washington Journalism Review , 1987 *Contemporary Media Issues* William David Sloan, Emily Erickson Hoff, 1998 *Perspectives on Mass Communication History* Wm. David Sloan, 2013-11-05 This unique volume is based on the philosophy that the teaching of history should emphasize critical thinking and attempt to involve the student intellectually rather than simply provide names dates and places to memorize The book approaches history not as a cut and dried recitation of a collection of facts but as multifaceted discipline In examining the various perspectives historians have provided the author brings a vitality to the study of history that students normally do not gain The text is comprised of 24 historiographical essays each of which

discusses the major interpretations of a significant topic in mass communication history Students are challenged to evaluate each approach critically and to develop their own explanations As a textbook designed specifically for use in graduate level communication history courses it should serve as a stimulating pedagogical tool **JQ. Journalism Quarterly** ,2000 Includes section Book reviews and other bibliographical material **Terrorism, Globalization & Mass Communication** Center for Global Media Studies. Conference,2003 Nineteen papers are drawn from the first conference sponsored by the Center for Global Media Studies held in Spokane Washington in July of 2002 Only two of the contributions are directly related to questions of terrorism and the media with one discussing mass mediated violence as a form of terrorism and the other exploring the social control role of mass media after September 11th The others examine such issues as the media companies and policies in Europe and Asia the globalization of the public relations industry transnational media management structures the transformation and structural changes in the advertising industry and the terminology of media consumed by the democratic globalization movement **The ABC-CLIO Companion to the Media in America** Daniel Webster Hollis,1995 This book tracks the history of radio television newspapers and periodicals **Yankee** ,1987-07 **The Media Essays** David Demers,2003 Many scholars and citizens argue that global mass media are institutions that help political and economic elites around the world achieve their goals often to the detriment of the less powerful and nonmainstream groups This book of essays supports that proposition but also shows that local mass media like the family owned Spokesman Review in Spokane Wash perform the same function for the communities they serve In other words all mainstream mass media perform a social control function for the communities or nations they serve The two dozen essays in this book are designed to be easy to read and many illustrate the social control function using real world examples Book jacket **Structural Pluralism, Competition and the Growth of the Corporate Newspaper in the United States** David Demers,1992 **Popular Periodical Index** ,1987
