Splitting A Case Of Female Masculinity:

Splitting Robert J. Stoller,1997-01-01 This text is a case study of a woman otherwise intelligent and apparently sane who was convinced that she had internally a full set of functioning male sex organs This account of her diagnosis and treatment is illustrated by excerpts from the patient analyst dialogue during her therapy

Every Inch a Woman Carellin Brooks,2011-11-01 What makes the textual image of a woman with a penis so compelling malleable and persistent Although the figure of the phallic woman is in no sense unique to our age Every Inch a Woman takes note of a proliferation of phallic feminine figures in disparate North American and European texts from the end of the nineteenth century onward This multiplication which continues today admits of a corresponding multiplicity of motives The phallic woman can be a ribald joke a fantastical impossibility a masculine usurper an ultimately unthreatening sexual style an interrogation into the I of the author or an examination of female culpability Carellin Brooks takes up the textual figure of the phallic woman where Freud locates it in the imagined mother that the little boy in fantasy credits with a penis of her own It traces this phallic woman motif backward to the sexological case study and forward to newspaper accounts of testosterone taking third sexers Brooks examines both high and low literature pornography postmodern theory and writing that would seem to answer Lacan's injunction to move beyond the phallus Witty and engaging Every Inch a Woman makes an innovative contribution to sexuality gender and women's studies as well as psychoanalytic theory and criticism

Schizophrenia J. Michael Mahoney,2011-11 Man has long searched for the cause and meaning of mental illness This book which is a combination of the author's earlier books Volumes One and Two continues in his attempt to answer those questions The author compiler has spent 47 years investigating these problems and his conclusion is that severe unconscious bisexual conflict and confusion lie at the root of all mental illness as difficult to comprehend as this idea may be The book itself consists of 790 quotations from a variety of sources all of which point to the unshakable truth of this hypothesis This is a fixed law of nature unassailable and constantly operative in every case No other species but man is afflicted with mental illness because no other species has either the intellectual power to repress their sexual feelings nor the motivation to do so The disease we call schizophrenia is but an arbitrary name which is used to designate the end stage of a process beginning with a slight neurosis The more severe the bisexual conflict and confusion in the individual the more severe the degree of the mental illness which is experienced Several other investigators in the past have reached this same conclusion but unfortunately their wisdom went largely unheeded Hopefully this book will remedy that ill advised neglect
