Spirits Of '76 Catholic Inquiry:

The Spirits of '76 Donald J. D'Elia, 1983 Historian Donald D Elia offers one of the most original sets of essays ever penned on the seven greatest founding fathers looking at the development of their philosophical and religious convictions The essays include The Relevance of Thomas Jefferson Benjamin Rush A Christian Revolutionary John Adams Revolutionary as Manichaeus Charles Carroll of Carrollton A Catholic Revolutionary George Washington The Founder as Stoic Alexander Hamilton From Caesar to Christ and Benjamin Franklin Poor Richard's Religion *The Transformation of the American Democratic Republic* Stephen M. Krason, 2017-09-08 In this stimulating volume Stephen M Krason considers whether the Founding Fathers vision of the American democratic republic has been transformed and if so in what ways He looks to the basic principles of the Founding Fathers then discusses the changes that resulted from evolving contemporary expectations about government Referencing philosophical principles and the work of great Western thinkers Krason then explores a variety of proposals that could forge a foundation for restoration Acknowledging that any attempt to revive the Founders views on a democratic republic must start in the public sphere Krason focuses on concerned citizens who are aware of the extent to which our current political structures deviate from the Founders vision and want to take action Ultimately a democratic republic can exist be sustained and flourish only when there is a deep commitment to it in the minds and norms of its people Written by a foremost authority in the field of US Constitutional law this book will appeal to those interested in American history society and politics *The Revolution Against Christendom, 1661-1815* Warren Hasty Carroll, 2006-03 Chronicles developments in Christianity and the Catholic Church the papacy and its place in world history from 1661 to 1815 focusing in particular on the Church in France from the French Revolution through the rule of Napoleon **Catholic Makers of America** Stephen M. Krason, 2006-04-07 This book is intended to call attention to a number of important men in the history of American Catholicism and of the American nation generally All were prominent figures in their time Some held important national political positions and or had a significant impact on national political debate while others were better known on a regional basis All share the curious common fate of being largely unknown or at least not frequently thought of in our time Their names not only seldom come up in works of American history and political theory but are hardly familiar even to their co religionists of today The important point to stress here is that the contributors of the essays share the conviction that the story of these men and their contributions to American political life and thought ought to be told in our time and that they have deserve to receive the attention that other public men have received Stephen M Krason Editor *Bright Promise, Failed Community* Joseph A. Varacalli, 2000 In *Bright Promise Failed Community* respected Catholic sociologist Joseph Varacalli describes how and why Catholic America has essentially failed to shape the American Republic in any significant way American society has never experienced a Catholic moment the closest it came was during the immediate post World War II era nor is it now close to approximating one Varacalli identifies as the cause of the current situation the failed

community of Catholic America an ineffective and dissent ridden set of organizational arrangements that has not succeeded in adequately communicating the social doctrine of the Church to Catholic Americans or to the key idea generating sectors of American life The bright promise of Catholic America lies in the long and still developing tradition of social Catholicism With a revitalized orthodox sophisticated community to serve as the carrier of Catholic social doctrine Varacalli sees trends of thought that would propose viable alternatives to philosophies and ideologies that currently dominate the American public sphere ones that would thus have a formidable impact on American society

Downfall of Babylon, 1834 *Encyclopedia of Catholic Social Thought, Social Science, and Social Policy* Michael L. Coulter, Richard S. Myers, 2007 With more than 800 topics from over 300 contributors Encyclopedia of Catholic Social Thought Social Science and Social Policy is a comprehensive introduction to the Catholic vision of society social relations and the human being It combines theoretical work on important topics and scholarly disciplines e g economics moral theology natural law philosophy psychology social science perspectives on a variety of topics e g alcoholism and drug abuse forgiveness and mercy globalization and treatment of practical policy implications that flow from applying the Catholic religious moral and intellectual tradition to contemporary issues e g abortion assisted suicide immigration policy school choice torture The book reflects a broad range of Catholic thought that is international in scope but with an emphasis on the American situation Its interdisciplinary approach offers insights from a variety of perspectives theological philosophical historical economical sociological political psychological and legal The work will appeal to individuals who want a clear and accurate introduction to Catholic social thought and a Catholic informed social science and social policy One certainly need not be a devotee and advocate for Catholic social thinking to find this encyclopedia of good use as a handy reference tool

A Contest of Faiths Susan Mitchell Yohn, 1995 Susan M Yohn here reconstructs the interactions between Presbyterian women missionaries in the southwest and the native Hispanic Catholic people they set out to Americanize between 1867 and 1924 In the process she reveals how many Protestant women reformers shared a series of experiences that contributed to a national dialogue about cultural pluralism

The Future of Christian Mission in India Augustine Kanjamala, 2014-08-21 Colonial missionaries both Catholic and Protestant arrived in India with the grandiose vision of converting the pagans because like St Peter Acts 4 12 and most of the church fathers they honestly believed that there is no salvation outside the church extra ecclesiam nulla salus At the end of the great Protestant century however Christians made up less than 3 percent of the population in India and the hope of the missionary was nearly shattered But if one looks at mission in India qualitatively rather than quantitatively one sees a number of positive outcomes Missionaries in India particularly Protestant missionaries espousing the social gospel in collaboration with a few British evangelical administrators dared to challenge numerous social evils and even began to eradicate them The scientific and liberal English education began to enlighten and transform the Indian mindset Converts belonging to the upper caste although small in number laid the foundation stone of Indian theology and an inculturated church using Indian genius The

end of colonialism in India coincided with the painful death of colonial mission theology Now the power of the Word of God extricated from political power is slowly and peacefully gaining ground like the mustard seed of the parable A paradigm shift from the ecclesio centric mission to missio Dei offers reason for further optimism In short the future of mission in India is as bright as the kingdom of God In today s new context theologians despite objections from some quarters are struggling to discover the Asian face of Jesus disfigured by the Greco Roman Church And the missionary is challenged to become a living Bible that undoubtedly everyone will read

The Scientific Spirit of American Humanism Stephen P. Weldon, 2020-10-06

The story of how prominent liberal intellectuals reshaped American religious and secular institutions to promote a more democratic science centered society Winner of the Morris D Forkosch Award for Best Book by the Center for Inquiry Recent polls show that a quarter of Americans claim to have no religious affiliation identifying instead as atheists agnostics or nothing in particular A century ago a small group of American intellectuals who dubbed themselves humanists tread this same path turning to science as a major source of spiritual sustenance In *The Scientific Spirit of American Humanism* Stephen P Weldon tells the fascinating story of this group as it developed over the twentieth century following the fortunes of a few generations of radical ministers academic philosophers and prominent scientists who sought to replace traditional religion with a modern liberal scientific outlook Weldon explores humanism through the networks of friendships and institutional relationships that underlay it from philosophers preaching in synagogues and ministers editing articles of Nobel laureates to magicians invoking the scientific method Examining the development of an increasingly antagonistic engagement between religious conservatives and the secular culture of the academy Weldon explains how this conflict has shaped the discussion of science and religion in American culture He also uncovers a less known but equally influential story about the conflict within humanism itself between two very different visions of science an aspirational democratic outlook held by the followers of John Dewey on the one hand and a skeptical combative view influenced by logical positivism on the other Putting America s distinctive science talk into historical perspective Weldon shows how events such as the Pugwash movement for nuclear disarmament the ongoing evolution controversies the debunking of pseudo science and the selection of scientists and popularizers like Carl Sagan and Isaac Asimov as humanist figureheads all fit a distinctly American ethos Weldon maintains that this secular ethos gained much of its influence by tapping into the idealism found in the American radical religious tradition that includes the deism of Thomas Paine nineteenth century rationalism and free thought Protestant modernism and most important Unitarianism Drawing on archival research interviews and a thorough study of the main humanist publications *The Scientific Spirit of American Humanism* reveals a new level of detail about the personal and institutional forces that have shaped major trends in American secular culture Significantly the book shows why special attention to American liberal religiosity remains critical to a clear understanding of the scientific spirit in American culture

William Cleary,1899 **Alphabetical Catalogue of the Library of Congress** Library of Congress,1880 Catholic Life, U.S.A. Leo Richard Ward,1959 Romano Guardini Romano Guardini,2023-03-01 This book is not just a history To be sure it offers an historical account of the life of Romano Guardini 1885 1968 as recounted by Guardini himself However it is not simply about the past Precisely because it deals with the life of a faithful and thoughtful person the book is also about the present and projects itself into the future For as Guardini always insisted leading a thoughtful and faithful life means being oriented toward the good life that is toward the vision of a just and loving community This orientation does not just happen by itself nor can it be imposed or dictated from above but has to be nurtured steadily by hearts open to the voice of the Spirit and the call of truth Seen in this way Romano Guardini occupies a crucial place in the world in his world in ours and in the world to come As he emphasizes beautifully at the end of his memoir *Narratives of My Life Autobiographical Notes* he never considered himself as an isolated individual nor as the spokesman of a dominant ideology or doctrine Rather his work was always energised by and in dialogue with a broader context a context which one of his mentors Max Scheler aptly called the life world *The Cumulative Book Index* ,1984 A world list of books in the English language *The Catholic Periodical Index, a Cumulative Author and Subject Index to a Selected List of Catholic Periodicals* ,1961 **Men of Achievement** ,1992 **The Vodou Ethic and the Spirit of Communism** Paul C.
