

Stages of Trauma Recovery

Trauma healing often occurs in four stages.

Stage 1 focuses on establishing safety. Stage

2 involves remembering the trauma and

grieving about what happened. Stage 3

requires a person to reconnect to their core

values and what brings joy. Stage 4 is about

using the skills one has developed to focus

on living life to the fullest.

The Grasp That Reaches beyond the Grave Venetria K. Patton,2013-06-20

The Grasp That Reaches beyond the Grave investigates the treatment of the ancestor figure in Toni Cade Bambara s *The Salt Eaters* Paule Marshall s *Praisesong for the Widow* Phyllis Alesia Perry s *Stigmata* and *A Sunday in June* Toni Morrison s *Beloved* Tananarive Due s *The Between* and Julie Dash s film *Daughters of the Dust* in order to understand how they draw on African cosmology and the interrelationship of ancestors elders and children to promote healing within the African American community Venetria K Patton suggests that the experience of slavery with its concomitant view of black women as natally dead has impacted African American women writers emphasis on elders and ancestors as they seek means to counteract notions of black women as somehow disconnected from the progeny of their wombs This misperception is in part addressed via a rich kinship system which includes the living and the dead Patton notes an uncanny connection between depictions of elder ancestor and child figures in these texts and Kongo cosmology These references suggest that these works are examples of Africanisms or African retentions which continue to impact African American culture
