Life Support Leader's Handbook, 1993 *Rethinking Leadership for Clinical, Counselling and Health Psychologists*

Amra Saleem Rao, 2025-12-22 This pioneering book offers a bold psychologically informed take on leadership for today's complex and evolving systems. Written for clinical counselling and health psychologists, it challenges traditional models and reframes leadership as a dynamic, adaptive, and systems-aware practice. With a distinctive triadic lens looking within, between, and across systems, it integrates psychological theory, organisational insight, and systems thinking to explore how identity, emotion, power, and context shape leadership and followership in real-world environments. It offers practical tools to navigate relational challenges, manage work pressures, foster psychological safety, and lead with purpose through conflict, change, and uncertainty. Grounded in lived experience and learning in action, this book shows how leadership is co-created through reflective and reflexive practice, inclusive collaboration, and ethical influence. It argues that sustainable transformational change requires strategic focus, courageous engagement with power dynamics, and support for leadership at all levels. Essential reading not only for psychologists, managers, and aspiring leaders but for anyone interested in creating healthier, more equitable workplaces and leading with courage, compassion, and systemic insight. **Strategic Public Relations**

Leadership Anne Gregory, Paul Willis, 2022-07-22 Public relations professionals are operating in an increasingly challenging and complex environment. Pressures from outside the organisation include new accountabilities, empowered stakeholders, increased public cynicism, and a new communication landscape. Internally, there are increasing demands to demonstrate a strategic contribution alongside a requirement to coach and counsel senior managers exposed to these environmental pressures. This revised and updated edition provides a framework to enable public relations professionals to clearly articulate and demonstrate their own contribution to organisational effectiveness while also setting out the specific capabilities public relations leaders must exhibit to operate at the highest levels of the organisation. This edition further develops the pioneering approach to integrating thinking around public relations leadership and strategy. It has been updated comprehensively to address contemporary developments and introduce new research and fresh perspectives from the authors. New to this edition are insights from Chief Executives on what they expect from public relations leaders and a comprehensive set of capabilities which scope the demanding role of professionals at the top of their game. Concise and practical, this textbook is suitable for MBA and other postgraduate and executive education qualifications in Public Relations and Corporate Communications, especially for those students who wish to pursue a successful career as a professional public relations specialist able to operate strategically at the top of successful organisations.
