## **Structures Of Everyday Life Volume 1:**

*Civilization and Capitalism, 15th-18th Century, Vol. I* Fernand Braudel, 1992 This social and economic history of Europe from the Middle Ages to the Industrial Revolution organizes a multitude of details to paint a rich picture of everyday life

**The Structures of Everyday Life** Fernand Braudel, 1981      **Critique of Everyday Life, Vol. 1** Henri Lefebvre, 2008-02-17 Henri Lefebvre's magnum opus a monumental exploration of contemporary society Henri Lefebvre's three volume Critique of Everyday Life is perhaps the richest most prescient work by one of the twentieth century's greatest philosophers Written at the birth of post war consumerism the Critique was a philosophical inspiration for the 1968 student revolution in France and is considered to be the founding text of all that we know as cultural studies as well as a major influence on the fields of contemporary philosophy geography sociology architecture political theory and urbanism A work of enormous range and subtlety Lefebvre takes as his starting point and guide the trivial details of quotidian experience an experience colonized by the commodity shadowed by inauthenticity yet one which remains the only source of resistance and change This is an enduringly radical text untimely today only in its intransigence and optimism      *Global Trade and the Transformation of Consumer Cultures* Beverly Lemire, 2018-01-11 Charts the rise of consumerism and the new cosmopolitan material cultures that took shape across the globe from 1500 to 1820      *Henri Lefebvre, Metaphilosophy, and Modernity* Patrick Gamsby, 2025-08-22 Henri Lefebvre Metaphilosophy and Modernity provides a new interpretation of the work of Henri Lefebvre 1901 1991 reframing it as being above all a metaphilosophy of modernity Henri Lefebvre is increasingly being recognized as one of the great twentieth century thinkers Nevertheless the majority of scholarship on Lefebvre predominantly focuses on his theorizing of space often taking Lefebvre's The Production of Space as the point of departure and or on his theorizing of everyday life with his multi volume Critique of Everyday Life as the focal point This book argues that it is Lefebvre's concept of metaphilosophy that provides the connective tissues for these works one that is chiefly concerned with deciphering the enigma of modernity The book will appeal to a wide interdisciplinary and international audience from the fields of sociology philosophy cultural studies geography the history of ideas and literary studies This includes scholars and students interested in Henri Lefebvre's writings everyday life modernity space time leisure work continental thought critical theory Marxism and technology      *The Oxford Handbook of Early Modern European History, 1350-1750* Hamish Scott, 2015-07-23 This Handbook re-examines the concept of early modern history in a European and global context The term early modern has been familiar especially in Anglophone scholarship for four decades and is securely established in teaching research and scholarly publishing More recently however the unity implied in the notion has fragmented while the usefulness and even the validity of the term and the historical periodisation which it incorporates have been questioned The Oxford Handbook of Early Modern European History 1350 1750 provides an account of the development of the subject during the past half century but primarily offers an integrated and comprehensive survey of

present knowledge together with some suggestions as to how the field is developing It aims both to interrogate the notion of early modernity itself and to survey early modern Europe as an established field of study The overriding aim will be to establish that early modern is not simply a chronological label but possesses a substantive integrity Volume I examines Peoples and Place assessing structural factors such as climate printing and the revolution in information social and economic developments and religion including chapters on Orthodoxy Judaism and Islam
