2025 Edition Alternate History Novel:

The Internment Ordeal in a Post-Truth World Nicolangelo Becce, 2026-04-13 The volume explores how contemporary representations of the incarceration of Japanese Americans during World War II are reshaping the collective memory of that painful experience while at the same time implicitly offering a commentary on current limitations of human and civil rights in the United States One of the worst cases of violation of civil liberties against an ethnic group in the history of the country the Japanese American internment has recently become the subject of a renewed interest both in literature and in other popular media With their rendition of events twenty first century authors and artists are offering a new enriching and more inclusive understanding of the incarceration experience both in order to broaden the comprehension of that event and highlight how it is still relevant today By analyzing works of literary fiction memoirs TV series and graphic novels this monograph argues that contemporary literature and other media play a significant role in the development of a new conversation about the internment experience

The Ancient World in Alternative History and Counterfactual Fictions Alberto J. Quiroga Puertas, Leire Olabarria, 2024-08-22 Focusing in turn on history powerful individuals under represented voices and the arts the essays in this collection cover a wide variety of modern and contemporary narrative fiction from Jo Walton and L Sprague De Camp to T S Chaudhry and Catherynne M Valente Chapters look into the question of chance versus determinism in the unfolding of historical events the role individuals play in shaping a society or occasion and the way art and literature symbolise important messages in counterfactual histories They also show how uchronic narratives can take advantage of modern literary techniques to reveal new and relevant aspects of the past giving voices to marginalised minorities and suppressed individuals of the ancient world Counterfactual fiction and uchronic narratives have been largely up until now the domain of literary critics However these modes of literature are here analysed by scholars of Ancient History Egyptology and Classics shedding important new light on how cultures of the ancient world have been and still are perceived and to what extent our conceptions of the past are used to explore alternate presents and futures Alternate history entices the imagination of the public by suggesting hypothetical scenarios that never occurred underlining a latent tension between reality and imagination and between determinism and contingency This interest has resulted in a growing number of publications that gauge the impact of what if narratives and this one is the first to give scholars of the ancient world centre stage
