Karowalia, 2021-01-28 Fast forward to the year 2050 to a world that s forgotten the true meaning of conflict War is an alien concept Little do they know things are about to change and alien is the operative word A contrived peace reigns in this age of space an existence that would be unrecognisable to predecessors just decades before Be prepared to hold onto your seat as this futuristic thriller hurtles through space at a speed faster than light There is brave Lieutenant John who questions his role in this state of unnatural peace and calm He expresses his unease at getting paid for passing time in useless exercises General Edward admires his lieutenant s outspoken attitude He reminds him that it is all about fail to prepare prepare to fail Secretly he understands where Lieutenant John is coming from and like him wonders what their role in this oddly tranquil existence is They won t have to wonder for long There s trouble brewing and it s beyond stratospheric Little do the general and his right hand man know that humankind and Earth are about to experience a threat unparalleled in the history of its existence The peace is about to be broken and it s without an arrow or missile being launched or even a single bullet being fired It s a war no one could ever imagine In this scenario of global peace there s another development that has left the world vulnerable every disease has been eradicated and the medical profession is fast becoming defunct Technology is king bees are equipped with microscopic trackers there s a research station on Mars and most households own aeroplanes There is little or no place for doctors in this space age Someone is watching out there

Watching for the right moment to strike in the most unexpected way Waiting for Earth to be well and truly lulled into a sense of false security This alien invasion has a three staged master plan firstly by enslaving humans by hacking into their subconscious secondly to deprive Earth of all its natural resources by injecting Earth with giant leeches and lastly to abduct the entire human population and take them to their planet to either sell them as slaves or make them work as labour at their interplanetary construction project At the helm is the sinister Allana supreme lord of the Moonians Their weapon of choice is biowarfare so futuristic it seems that there s no hope for humankind Lord Allana s plans to fight dirty by disabling the human subconscious by infecting their victims with a nano virus transferred by nano android mosquitoes The plan is to enslave most of humankind turning them into vessels little more than humanoids controlled by their Moonian masters Caught unawares the alien s intentions seem to be going as planned as unsuspecting humans go down like flies As if this isn t enough when humans are asleep their leeches get hyperactive which are deployed throughout the world and begin working underground These leeches have been programmed to drill down beneath the earth s surface to harvest all the planet s minerals and precious metals and go into hibernation upon being full to be picked up by mother ships at nighttime The plot twists and turns at an exhilarating rate leaving you wondering what s on the next page Right up to the last chapter you ll be in the dark as to how it will all end Ultimately it is a work about coming together and breaking through borders of all countries of the world for humankind to stand up as one and fight against a common enemy instead of against one another

When he comes face to face with the Morleisx, an alien race with advanced technology set on conquering the cosmos, he discovers that he is in a much darker reality. Now an inmate in the Morleisx's prison camp Polorjx on a strange planet called the Akrouix, he has two options: adapt or escape. But with the harsh living conditions of the camp and the abuse of power from both the Morleisx and the Chinese mafia, he realizes that adapting isn't an option. When an alien invasion lands on Earth, Friede knows that any hope of rescue from the U.S. government is gone; he's on his own. It's up to him to rally all of the prisoners to make an escape together, a task that proves difficult when he finds that his fellow inmates from across the globe don't trust each other and they certainly don't trust an American government agent. Together, this band of unlikely allies must not only face the perilous journey of escaping the Akrouix but uncover the reasons why they ended up there in the first place. The governments of Earth have much darker ties to the Akrouix than any of them could have imagined. Can Will Friede and his group of escapees put aside their differences to survive the treacherous terrain of the Akrouix? And more importantly, can they save the world?
