Joshua Comaroff

Temporary Ghost:

Ghosts Are Real Jack Tanner,2018-03-07 Scientists once laughed at people who believed in invisible waves Then the theory of electromagnetism demonstrated that we are immersed in an ocean of invisible waves Scientist sneered at people who believed in invisible energies Now scientists say that 95% of the universe is made of dark energy and dark matter that are wholly invisible It won t be long until scientists have accepted the reality of ghosts Imagine a soul phone for contacting the dead such as Thomas Edison believed possible Would it be the most popular invention ever Whom would you call famous figures from history saints and prophets or your dear departed ones Or would you try to get through to God himself and hope you didn t get a crackly connection Atheists always get No Signal **The Fraud Audit** Leonard W. Vona,2011-06-09 Essential guidance for creation of an effective fraud audit program in core business systems The Association of Certified Fraud Examiners has reported that U S businesses lose up to 4 billion annually due to fraud and abuse Discover fraud within your business before yours becomes another business fraud statistic The Fraud Audit provides a proven fraud methodology that allows auditors to discover fraud versus investigating it Explains how to create a fraud audit program Shows auditors how to locate fraud through the use of data mining Focuses on a proven methodology that has actually detected fraudulent transactions Take a look inside for essential guidance for fraud discovery within specific corporate F A functions such as disbursement procurement payroll revenue misstatement inventory journal entries and management override *A Temporary Ghost* Mickey FRIEDMAN,1993 **The Ghost Squad and the Prowling Hermits** Edmund Wallace Hildick,1987 The members of the Ghost Squad determine to keep the evil Dr Purcell from succeeding in his plan to have his ghostly accomplices take over the temporarily vacated bodies of living beings **Spectropolis** Joshua Comaroff,2025-11-04 How economic transformation and the spirit world collide in hypermodern Singapore In Singapore the financial center of Southeast Asia hyperurbanization and commercial development exist alongside enduring belief in the economic power of ghosts in their ability to control the flows of money and value and to determine the outcome of investments and wagers Spectropolis explores the unlikely collusion of these two systems demonstrating both the productive role of popular beliefs in the modern world and the surprising correlations between late capitalism and the workings of the spirit realm Detailing the logic and practices of Singapore s ghost economy from performing exorcisms on real estate development sites to offering money and commodities to the dead as a hedge against precarious real world transactions Joshua Comaroff shows how speculative finance largely governed by chance and volatility is understood via its inherently spectral qualities Through the influence of Chinese Buddhist Taoist thought the movement of capital is placed under the sway of cosmology and geomancy resulting in a built environment that is both technologically advanced and quite literally enchanted Based on detailed case studies and years of extensive fieldwork Spectropolis argues for the power of popular belief systems to theorize contemporary socioeconomic conditions and to give form to collective affect as well as shared aspirations and anxieties As

Comaroff demonstrates the uniquely all consuming nature of Singapore s tightly compressed urban economy is such that it may subsume even that which lies beyond the threshold of life itself Retail e book files for this title are screen reader friendly with images accompanied by short alt text and or extended descriptions
