understanding of both fields In each word the ancient text presents prophecies of future human events just as the embryo appears as a witness to primordial processes of world creation In clear gestures Genesis prophecies the Christ event and the path of individuality made possible by that event while the human embryo guarantees that we are predisposed to bear the spiritual power that came to earth through the event of Christ The author does not assume the reader s specialist knowledge of either the book of Genesis or embryology Dr Appenzeller wrote for all readers whose hearts desire deeper human knowledge
