Universal Singular:

Universal Singular Sonia Curnier, 2022-11-21 A critical introduction to the design of public spaces The way public spaces are designed reflects the period in which they were created However in our globalized world of experience and images the desire for uniqueness tends to achieve the opposite increasingly designers of open spaces resort to the same devices and thereby distance themselves from the urban context The author analyzes ten outstanding contemporary designs of public spaces in Europe in terms of their function in the urban context and what materials are used for their implementation In interviews with the designers she retraces the changes of the concepts during the design stage of the projects underpinning her findings with numerous sketches In addition her research focuses on how the projects were received in the community Learning from designers of outstanding public spaces in Europe Numerous unpublished design sketches A clear guide to urban design Also available in a French edition *The Universal Singular* Pierre Emmanuel, 1950 Universal Dictionary of the English Language Robert Hunter, 1899 **Universal Dictionary of the English Language**, 1898 **Universal Dictionary of the English Language: Rhe-Z** Robert Hunter, 1897 **A Universal and Critical Dictionary of the English Language** Joseph Emerson Worcester, 1887 **Kafka and the Universal** Arthur Cools, Vivian Liska, 2016-07-25 Kafka's work has been attributed a universal significance and is often regarded as the ultimate witness of the human condition in the twentieth century Yet his work is also considered paradigmatic for the expression of the singular that cannot be subsumed under any generalization This paradox engenders questions not only concerning the meaning of the universal as it manifests itself in and is transformed by Kafka's writings but also about the expression of the singular in literary fiction as it challenges the opposition between the universal and the singular The contributions in this volume approach these questions from a variety of perspectives They are structured according to the following issues ambiguity as a tool of deconstructing the pre-established philosophical meanings of the universal the concept of the law as a major symbol for the universal meaning of Kafka's writings the presence of animals in Kafka's texts the modernist mode of writing as challenge of philosophical concepts of the universal and the meaning and relevance of the universal in contemporary Kafka reception This volume examines central aspects of the interplay between philosophy and literature *Library of Universal Literature: Critique of pure reason*, 1900 *Global Manifestos for the Twenty-First Century* Nicol A. Barria-Asenjo, Brian Willems, Slavoj Žižek, 2023-11-22 Bringing together over forty original short essays some academic others more creative in nature this collection responds to the political historical social and economic situation in which we find ourselves today The editors argue that we are living in a repetition that must be stopped if our goal is that the signifier humanity remains in the following centuries the time has come to work in the present The objective is not to deliver precise or quick answers but to gather varied voices from different continents bringing together different languages ideas practices theories thoughts and desires In the words of Yanis Varoufakis urging us to become agents of a future that ends unnecessary mass suffering and inspire

humanity to realise its potential for authentic freedom To leave the concept of a manifesto open the contradictory aspects of the chapters are a subject of the manifesto itself This is a manifesto of contradictions that reflects our reality as well as our struggles and our aspirations This unique anthology will appeal to students and scholars across the humanities and social sciences interested in critical theory and social change
