When Change Is Set In Stone:

Set in Stone Kenneth Shefsiek, 2017-02-23 Challenges the belief that the Walloons and the Dutch of the Hudson Valley were cultural preservationists who resisted English culture In 1678 seven French speaking Protestant families established the village of New Paltz in the Hudson River Valley of New York Life on the edge of European settlement presented many challenges but a particular challenge for these ethnic Walloon families originally from the southern Spanish Netherlands was that they lived in a Dutch cultural region in an English colony In *Set in Stone* Kenneth Shefsiek explores how the founders and their descendants reacted to and perpetuated this multiethnic cultural environment for generations As the founding families controlled their town economically and politically they creatively and selectively blended the cultures available to them They allowed their Walloon culture to slip away early in the village s history but they continued to combine Dutch and English cultures for more than 150 years When they finally abandoned the last vestiges of Dutch culture in the early nineteenth century they did so just as descendants of English colonists began to claim that the national commitment to liberty and freedom was grounded in the nation s English heritage Not willing to be marginalized descendants of the New Paltz Walloons constructed an alternative national narrative placing their ancestors at the very center of the American story Kenneth Shefsiek demonstrates that he has a keen eye for detail and this careful attention to the small things helps bring New Paltz s past to life The book paints a surprising picture of one of the most intriguing communities in early America Andrew Lipman author of *The Saltwater Frontier Indians and the Contest for the American Coast* *Tales set in Stone* UNESCO, 2012-02-07 *Memories Set in Stone—How Visitors Make Sense of Memorials* Larissa Hugentobler, 2025-09-30 In this open access book Larissa Hugentobler explores the world of public memorials highly visible and at times contentious media which communicate a nation s values and ideals its public memory By celebrating a selection of a nation s history the memorial landscape has long rendered marginalized groups virtually invisible This book focuses on two rare celebratory U S memorials in Washington DC dedicated to a member of a marginalized community Dr Martin Luther King Jr The author explores how visitors experience the two cultural sites including their narratives about King and the Civil Rights Movement For a holistic understanding Hugentobler combines analyses of visitor experiences on site and on Instagram with expert interviews and autoethnographies This allows for insights into the importance of celebratory memorials to individuals from marginalized communities and why those memorials matter to visitors By acknowledging that the memorial experience is not limited to the time and space of a visit this book begins to answer the urgent question of the roles of the offline and online realms in commemoration and highlights how each can contribute to a memorial landscape that is meaningful to a variety of people [Is the Future Set in Stone?](#) Troy J. Edwards, 2019-05-15 God knows all things and there is nothing that is hidden from Him Therefore if the future is already in existence and is a settled reality then there is no doubt that God knows it exhaustively Yet what if the future does not exist as the past did and the present currently does Is it necessary for an

omniscient God to have exhaustive knowledge of a non-existent entity. In his book *Is the Future Set in Stone*, Pastor Troy J. Edwards presents a thorough examination of the Scriptures, revealing the fact that the future is NOT in existence until it happens. This truth is important to understanding why God is by no means responsible for the fall of devils, men, and the horrendous evil on the earth. You will also see how God works with His free-will creatures to shape the future and bring it about.

Set in Stone Vicki Cummings, Amelia Pannett, 2005. As its title might suggest, this volume sets out to present a new view of Scotland's Neolithic as seen via its monumental structures. The papers brought together here came out of a research day at Cardiff University's School of History and Archaeology in January 2002 and cover a diverse number of topics. They raise questions of ancestry and worldview and highlight the amount that can be done in examining the settings of monuments.

Drawn and Written in Stone John Vincent Bellezza, 2020. *Drawn and Written in Stone* explores the religious history of the highest part of the Tibetan Plateau through its rock art and inscriptions. It is focused on facsimiles of ritual and ceremonial monuments carved and painted on stone surfaces and rock inscriptions in the Tibetan language, vital archaeological and historical materials for appraising the development of religion in Tibet ca. 100 BCE to 1400 CE. By probing the complexion of figures and letters in stone, this work considers how early cult traditions contributed to the establishment of Tibetan Buddhism and a rival faith known as Yungdrung Bon. Outside of the Indian cultural context, relatively little has been written about the historical antecedents of these popular Tibetan religions for a want of sources. This monograph helps remedy this large gap in Tibetan studies by drawing upon the author's surveys of rock art and rock inscriptions conducted in upmost Tibet between 1995 and 2013. Back cover.
