When the Body Says No Gabor Maté, 2019-01-03 Can a person literally die of loneliness Is there a connection between the ability to express emotions and Alzheimer's disease Is there such a thing as a cancer personality With compassion, warmth, and empathy Dr Gabor Maté draws on deep scientific research and his acclaimed clinical work to provide the answers to critical questions about the mind-body link and illuminates the role that stress and our emotional makeup play in an array of common diseases *When the Body Says No* explores the role of the mind-body link in conditions and diseases such as arthritis, cancer, diabetes, heart disease, irritable bowel syndrome, and multiple sclerosis Shares dozens of enlightening case studies and personal and moving stories including those of people such as Lou Gehrig, ALS, Betty Ford, breast cancer, Ronald Reagan, Alzheimer's, Gilda Radner, ovarian cancer, and Lance Armstrong, testicular cancer Reveals The Seven A's of Healing principles in healing and the prevention of illness from hidden stress

Social Work, Social Justice, and Human Rights Colleen Lundy, 2011-11-15 Social workers take pride in their commitment to social and economic justice, peace, and human rights and in their responses to related inequalities and social problems At a time when economic globalization, armed conflict, and ecological devastation continue to undermine human rights and the possibilities for social justice, the need for linking a structural analysis to social work practice is greater than ever The second edition of this popular social work practice text more fully addresses the connection between social justice and human rights It includes a discussion of social work's role in promoting peace and responding to environmental problems It also places a greater attention on the links between social work theories, concepts, and practice skill responses The text has been updated and revised throughout with four new chapters: social work and human rights, cultural competence and practice with immigrant communities, social work and mental health, communities and practice with couples and families Detailed case studies demonstrate the integration of theory, policy, and practice

Emotionally Absent Parents Zehra Aydın Koçak,2026-01-24 This book aims to function as a mirror for traumatized individuals in order to transform the overwhelming residue of the traumatized past into a healing journey thereby literature can be used as a reflective tool to lead traumatized individuals to witness experience relive and possibly grow out of their own childhood traumas provided that they empathize with the literary child characters Billy in A Kestrel for a Knave Jack in The Cement Garden and Frank in Angela's Ashes While experiencing traumatic experiences adult individuals might lose their ability to articulate what has happened or they might encounter a sense of emotional paralysis through their subconscious in the form of nightmares or flashbacks How does empathizing with children in literature help traumatized adults readers to develop defence mechanisms specific to their circumstances and unique qualities for each individual Though the focal point of this book sounds heartbreaking it actually mirrors the hidden real lives of the adult world who hide behind the positive image of the millennium We owe it to our traumatized child self to provide necessary equipment to allow him/her to acknowledge out loud the repressed past because the child figure in literature shows us who we are

American Journal of Health Education ,2004 **Alternative Medicine** Christine A. Larson,2006-12-30 Every day newspapers and television news programs present stories on the latest controversies over healthcare and medical advances but they do not have the space to provide detailed background on the issues Websites and weblogs provide information from activists and partisans intent on presenting their side of a story But where can students or even ordinary citizens go to obtain

unbiased detailed background on the medical issues affecting their daily lives This volume in the Health and Medical Issues Today series provides readers and researchers with a balanced in depth introduction to the medical scientific legal and cultural issues surrounding alternative medicine and its importance in today s world of healthcare Alternative Medicine is organized to provide students and researchers with easy access to the information they need Section 1 provides overview chapters on the background information needed to intelligently understand the issues and controversies surrounding complementary and alternative therapies such as the theories that serve as the foundation for alternative treatments Section 2 offers concise examinations of the contemporary issues and debates that provoke the most heated disagreements and misunderstandings such as the debates over the efficacy of alternative treatments and whether the government should regulate herbal treatments Section 3 includes reference material on alternative medicine including primary source documents from important clinicians and researchers in the debate over alternative treatments a timeline of important events and an annotated bibliography of useful print and electronic resources This volume in the Health and Medical Issues Today series provides everything a student requires to understand the issues involved in alternative medicine and serves as a springboard for further research into the issue
