Fairy Tale Retelling Framework:

Re-Orienting the Fairy Tale Mayako Murai, Luciana Cardi, 2020-08-25 New approaches to decenter Eurocentric perspectives in fairy tales and lift up storytelling cultures across the globe *Re-Orienting the Fairy Tale: Contemporary Adaptations across Cultures* seeks to re-orient the fairy tale across different cultures, media, and disciplines and proposes new approaches to the ever-expanding fairy tale web in a global context with a special emphasis on non-Euro-American materials. Editors Mayako Murai and Luciana Cardi bring together emerging and established researchers in various disciplines from around the world to decenter existing cultural and methodological assumptions underlying fairy tale studies and suggest new avenues into the increasingly complex world of fairy tale cultures today. Divided into three parts, the fourteen essays cover a range of materials from Hawaiian wonder tales to Japanese heroine tales to Spanish fairy tale film adaptation. Chapters include an invitation from Cristina Bacchilega to explore the possibilities related to the uncanny processes of both disorientation and re-orientation taking place in the journeys of wonder tales across multiple media and cultures. Aleksandra Szugajew's chapter outlines the strategies adopted by recent Hollywood live-action fairy tale films to attract adult audiences and reveals how this new genre offers a form of global entertainment and a forum that invites reflection on various social and cultural issues in today's globalizing world. Katsuhiko Suganuma draws on queer theory and popular musicology to analyze the fairy tale intertexts in the works of the Japanese all-female band Princess Princess and demonstrate that popular music can be a medium through which the queer potential of ostensibly heteronormative traditional fairy tales may emerge. Daniela Kato's chapter explores the ecological dimensions of Carter's literary fairy tale and offers an ecofeminist interpretation of a fairy tale forest as a borderland that lies beyond the nature/culture dichotomy. Readers will find inspiration and new directions in the cross-cultural and interdisciplinary approaches to fairy tales provided by *Re-Orienting the Fairy Tale*.

Memory Studies in the Digital Age D. Sudha Rani, Rachel Irdaya Raj, 2025-02-25 This interdisciplinary volume attempts to gauge the individual and social issues related to memory with an understanding of memory studies as an independent body of scholarship. It draws on multiple fields of knowledge like popular culture, history, literature, oral cultures, and storytelling, which facilitates a panoramic view of memory studies. This book investigates the intersection between memory studies, oral literature, and digital technology. It is also informed by the consciousness of memory in the digital age, which plays an integral role in what is remembered, forgotten, the form in which such memories are stored, and how they might be retrieved in the future. This book will be an invaluable resource for those involved in research from undergraduate to post-doctoral level. This includes sociologists, psychologists, historians, artists, academicians, as well as research scholars from other disciplines. **Epic Frameworks** Hugo Raines, AI, 2025-05-06 *Epic Frameworks* explores how ancient epic poems like the *Iliad* and the *Odyssey* were both composed and passed down through generations. Harvard Studies in Slavic Linguistics, 1995. *The Routledge Companion to International Children's Literature* John Stephens, 2017-09-11. Demonstrating the aesthetic, cultural, political, and intellectual diversity of children's literature across the globe, *The Routledge Companion to International Children's Literature* is the first volume of its kind to focus on the undervisited regions of the world. With particular focus on Asia, Africa, and Latin America, the collection raises awareness of children's literature and related media as they exist in large regions of the world to which mainstream European and North American scholarship pays very little attention. Sections cover Concepts and theories, Historical contexts and national identity, Cultural forms and children's texts, Traditional story and adaptation, Picture books across the majority world, Trends in children's and young adult literatures. Exposition of the literary, cultural, and historical contexts in which children's literature is produced, together with an exploration of intersections between these literatures and more extensively researched areas, will enhance access and understanding for a large range of international readers.
